What Makes This Chair Different?

| | |
|-----------------------------|--|
| One-Piece Frame | Frame does not need to be retightened. And no assembly is required. |
| Color-Matching Resin | The ToughResin™ chair series is not painted so exterior surface maintenance is easier. The ToughResin™ chair series has the color mixed directly into the resin so scratches are more difficult to detect. |
| Resin Density | High density resin for exceptionally durable chair |

Manufacturing Our manufacturing proces guarantees that no parts of the chair will ever loosen up and eventually wobble

Built with Only NEW Resin!

We use ONLY NEW RESIN to craft our chairs. Others may use recycled resin. It's cheaper, but recycled resin can compromise a chair's strength.

Our resin Chiavari chair has a non-stick, anti-static finish..

Perfect for indoor and outdoor events.

Save time and money with reduced maintenance.

Color is mixed inside resin. Scratches are concealed.
