

MOUNTING INSTRUCTIONS

BRISTLE DARTBOARD ONLY

How to mount dartboard cabinet onto wall.

It is very important to use correct hardware for your particular wall to avoid injury or damage. Therefore, hardware for mounting cabinet to wall is NOT provided. Purchase necessary hardware from your local hardware store. Tell your hardware person the *TYPE OF WALL* you are mounting your cabinet onto. (i.e. drywall board, wood, paneled, etc.) Make sure you are provided with the proper hardware to hold about 80 lbs.

1. Follow manufacturer's hardware instructions to mount the cabinet. Four holes are provided in the back of the cabinet for this purpose. These key holes are 16" apart (same distance as wall studs). Distance from the bull's eye to the ground should measure 5 feet 8 inches.
2. Remove dartboard from cabinet when mounting cabinet to wall.
