Base Type: E12-base

Light Source Included: No

Voltage: 120V

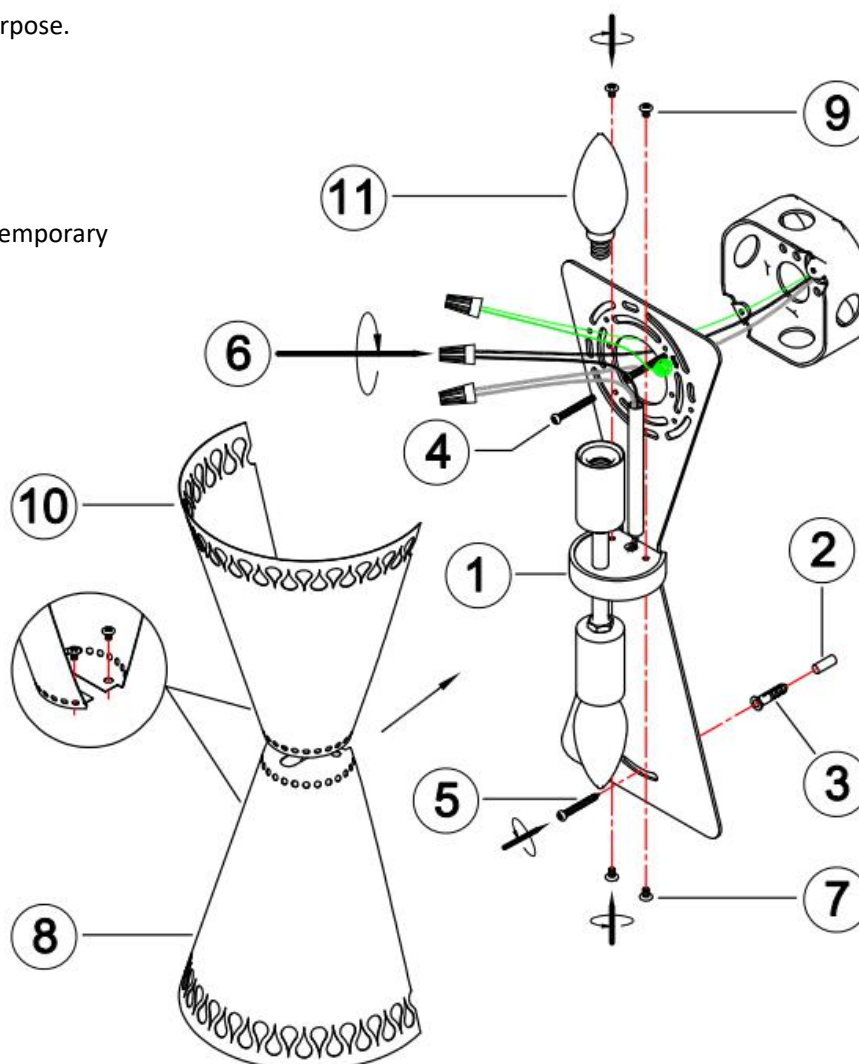

Wattage: 60W

Package includes

1 x Wall Light

1 x Accessory Pack

1 x User's Manual

Installation Instructions

1. Position the light fixture over the junction box, aligning the screw holes, and mark the location for the bottom mounting hole.
- 2-3. Drill a \varnothing 6*30mm hole at the marked location and insert a wall plug (skip this step if mounting on wood).
4. Secure the mounting plate (light fixture) to the junction box with the screws.
5. Adjust the mounting plate to the desired position and fasten it securely with the screws.
6. Pull the wires from the junction box and connect them to the light fixture wires using wire caps:
Connect the white (neutral) wire from the fixture to the white (neutral) wire in the junction box.
Connect the black (live) wire from the fixture to the black (live) wire in the junction box.
Connect the ground wire from the fixture to the ground wire in the junction box. Carefully tuck all wires back into the junction box.
- 7-10. Attach the top and bottom lampshades to the light fixture using screws.
11. Install the light bulb (not included).

Note: Please use this product accordingly to its intended purpose, do not retrofit or remodeling the product. The warranty does not cover if the failure is caused by the third party product, or natural disasters.
