

FREE STANDING BATHTUB INSTALLATION INSTRUCTION

Thank you very much for your purchase of high quality free standing bathtub.

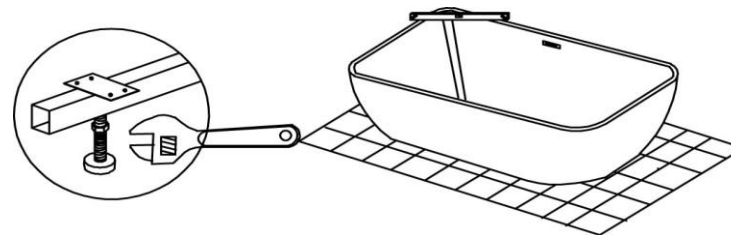

Before installation you should have:

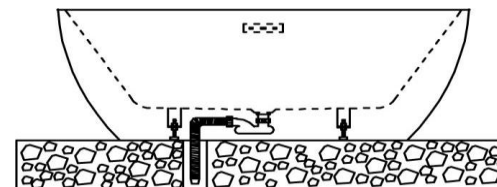

1. Take the bathtub out of the carton and put it on the cardboard and carpet. please ensure that all the surfaces of the bathtub must not contact rough things.

2. Before installing, please make sure the floor is flat. Then adjust the legs of bathtub to ensure the bathtub is installed horizontally. Otherwise, the water will collect in the bathtub.

3. Connect the free standing bathtub to the waste outlet.

4. After the installation, please do a final test to the bathtub. Please fill the bathtub with water and check if all water flows freely to the waste outlet.
