Recommended Care Instructions

- ☐ Liquid spills should be immediately blotted from the fabric surface using a clean white cloth or towel.
 - ☐ Use a water-based soap solution (1 tablespoon of liquid detergent to 2 cups of warm water) to dampen the cleaning cloth and gently BLOT away the spill. DO NOT RUB. A gentle circular motion may be used to go over the affected area. Rinse and rotate the cleaning cloth often to ensure complete removal all soap residue.
 - ☐ Do NOT over wet the surface of the fabric.
- ☐ Non-liquid spills: attempt removal with a soft brush or butter knife prior to following liquid spill clean-up instructions.
- ☐ For tougher stains: the use of a multi-purpose cleaner like Woolite® Fabric and Upholstery Cleaner may be used.
- ☐ Pile fabrics may require light brushing with a soft non-metallic brush to restore the overall appearance of the fabric.

Note that oil-based products (such as salad dressing and lotion), wax-based products (such as candle wax and crayons), lipstick, ink marks, mustard and other tough stains may not be completely removed even after following the recommended care instructions.

Frequent vacuuming of your upholstered furniture to remove dust and grime is recommended to help prevent overall soil and extend the longevity of the fabric.

IMPORTANT! Always test a small hidden section of upholstery to ensure fabric and color are not affected.
