	Screw2 x 2	Spacer x 5	

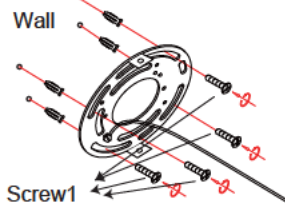

Step1:

Assemble the lamp body according to the diagram.

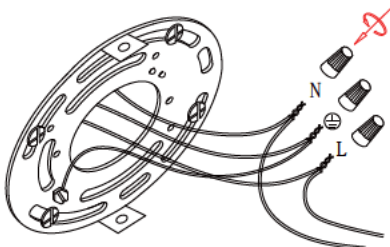

Type1

Type2

Step2:

Secure the hanging board in the designated position on the wall.

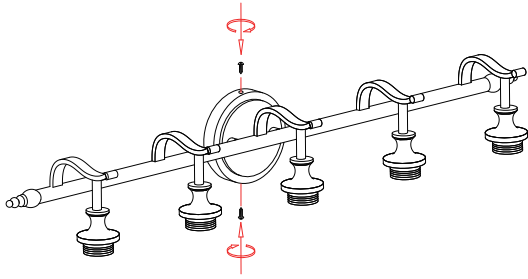

N: Naught wire

L: Live wire

G: Ground wire

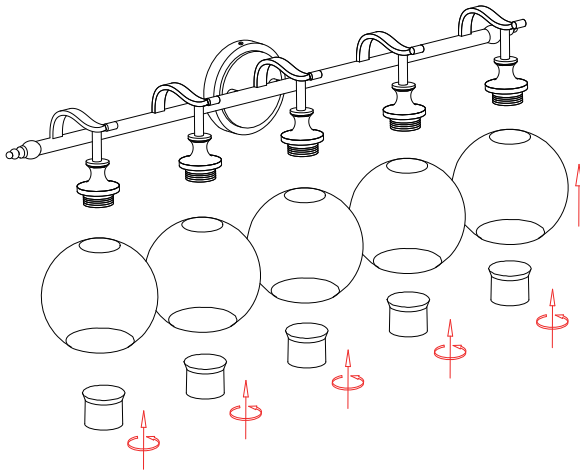

Step3:

Connect the main power line after confirming there are no errors.

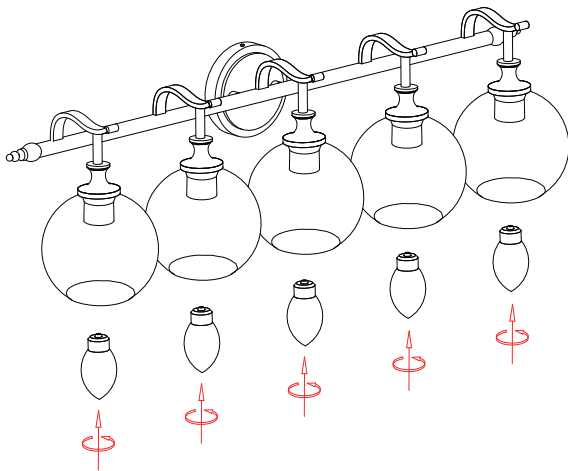

Step4:

Fix the lamp chassis on the hanging plate, and secure it firmly with screws.

Step5:

Connect the lamp head.

Step6:

Once the installation is confirmed to be correct, install the light source before testing it.

Note:

1. Keep it clean during installation to avoid scratches on the surface of lamps and wires.
 2. The environment should be ventilated and dry. Installation should be performed by a professional electrician.
 3. Keep the lamp away from corrosive chemicals and gases, such as acids and alkalis. Cleaning should be done with a clean, soft cloth, and avoid using water.
 4. Always turn off the power supply when cleaning the lamps or changing bulbs.
