

Solana Switchable Flush Mount

Simple Install, Soft, Curved Design, Subtle Glow

Elevate any space with the Solana Switchable Flush Mount by Juno® Lighting – where style meets simplicity. It's designed with 5CCT switchable technology that allows you to choose between 5 color temperatures options, ranging from a warm, 2700K up to daylight, 5000K, just simply toggle the switch to your desired setting during installation. Plus, Solana features a unique uplight halo effect that creates a soft, subtle glow that transforms any ceiling into a statement. Available in 17in, and white or black color finishes, the Solana is perfect for both residential and light commercial applications, including multi-family, hospitality, assisted living, dormitories & many more!

- **Switchable Technology** – 5CCT color temperature options ranging from 2700K (Warm White) to 5000K (Daylight). Too warm or too cool? Simply toggle the integrated switch to your desired setting!
- **Easy to Install** – Easily installs directly into new or existing industry standard junction boxes.
- **Soft, Curved Design** – Gentle, curved trim that provides depth to soften lighting for an improved, even illumination.
- **Uplight Halo effect** – Emits low illuminance through trim design openings to create a soft, subtle glow on the ceiling.

Curved trim design provides 1.5in of regression
