

Electronic Faucet 590T0 & 590T1 Series

TECK®

DELTA
COMMERCIAL

Specification: (example)

- **Battery** (4 'C' cell) or **Hardwire** (24 VAC) infrared electronic handwash system
- H₂OPTICS™ technology – no external adjustments required
- Chrome plated one piece **CAST** Hi-Rise spout with integral sensor
- Adjustable sensing range and timeout
- Audible low battery indicator
- Forged brass solenoid valve (control box No. 0 only)
- Tempered water supplied to solenoid valve, (except control box options No. 0 and 1)

and... with... (specify battery or hardwire)
 with... (add spout required)
 with... (add outlet required)
 with... (add control box required)
 with... (transformer - specify separately - See Back Page)

* **Mixing Valve** supplied by others.

(1) With Thermostatic Limit Stop.

Refer to www.specselect.com for individual models.

Note: Use this page front and back, with specification drawing page referenced above, as product submittal sheets.

Delta reserves the right (1) to make changes in specifications and materials, and (2) to change or discontinue models, both without notice or obligation. Dimensions are for reference only. See current full-line price book or www.specselect.com for finish options and product availability.

Flowrates are at 60 PSI.

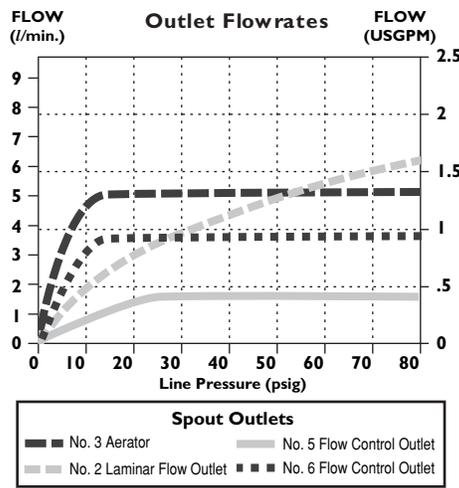

Approvals:

- CSA certified
- Complies to ASME A112.18.1
- ADA Compliant and meets Handicapped Accessibility Standard ASME A117.1 of less than 5 lbs. handle operating force.
- IAPMO listed
- Control Box Option 6 Mechanical Mixing Valve CSA certified
- Control Box Option 8 Thermostatic Mixing Valve CSA certified and meets ASSE 1016 and 1017

(Contact Delta Representative for State and/or Local Approvals.)

U.S. Patent #6, 826, 455.

FLOWRATE vs PRESSURE

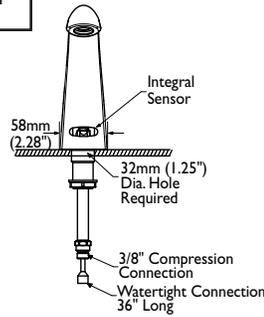

OPERATION:

- Hands free (touchless) operation.
- Water flows when sensor is activated.
- Water flow stops upon de-activation of sensor.
- Auto shut-off feature that is selectable between 15 to 75 seconds. Factory set to 45 seconds. Will reset once obstruction is removed.
- Adjustable sensing distance 76 to 381mm (3" to 15") factory set to 229mm (9") (+/- 1.0")
- Low battery audible beep (for battery models only) will activate after faucet shuts off when approximately 1500 cycles remain.

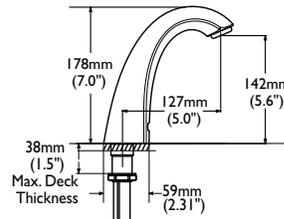

NOTE: For optimum performance of this product, we recommend a system pressure between 20 and 80 PSI static. This product will operate up to a maximum of 125 PSI static per ANSI and CSA requirements. However, we do not recommend pressures above 80 PSI. Thermal expansion or leaking pressure reducing valves may require use of expansion tanks or relief valves to ensure your system never exceeds its maximum intended pressure setting.

Note: Measurements may vary – 6mm (0.25")

590T0 & 590T1 ELECTRONIC FAUCET OPTIONAL ACCESSORIES:

✓ TRANSFORMERS:	
060704A	110 to 24VAC Class II 20VA (Up to 5 Electronic Valves)
060771A	110 to 24VAC Class II 40VA (Up to 10 Electronic Valves)
060772A	110 to 24VAC Class II 100VA (Up to 25 Electronic Valves)
✓ CORDS:	
060690A	36" Cable Extension
