(E)- Plain Washer
(8 x 16mm)
x16

(F)- Lock Washer
(8.5mm)
x16

(G)- Allen Key
x1

(H)- Shelves Hook
x8

assembly instructions

Friendly Tip: Take a deep breath going in. This may be a tricky part, but nothing too overwhelming. Just follow these steps to the T and the outcome will be worth it!

- ⓘ While assembling the product, tighten the bolts up to 50%. Once all parts are in place, only then fully tighten the bolts.

step 1:

Start by placing the table top (A) upside down on a flat surface. Then align the slots on the leg (B) with holes on the table top (A). See this image for reference.

step 2:

Now, insert washer (E), lock washer (F), and bolt (D) on all four holes and fix them in place with the help of allen key (G).

step 3:

Repeat step 2 with the remaining legs.

*** Note: There are 5 adjustable heights for side shelves.**

step 4:

Taking this image as reference, attach the shelf hooks (H) to the required pre-drilled slot. Make sure that the shelf hooks on each side are attached at the same level.

step 5:

To adjust the shelf height, remove the shelf hooks (H) and attach them to the slots as per your requirement

step 6:

Now, align and place the shelves (C) inside the cabinet as shown in the image below.

step 7:

If required, adjust the levellers according to the floor as shown in the image.

Voila! Your cabinet is now assembled and secure!
