Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

1. Adjust the fixture body to the desired orientation according to the indicator.
 2. Rotate the decorative nuts (C) to detach the mounting plate (A) from the fixture.
 3. Secure the mounting plate (A) to the junction box using screws (CC or DD, select appropriate length for your box) and washers (BB).
 4. For desired height, thread the cord through suspension rods (F, E, D). Tightly connect suspension rod (E) to the fixture body (I), and connect rod (D) to rod (E).
 5. Pass the cord through the canopy (B) and secure the canopy onto suspension rod (D).
 6. Wiring Connections
 - Use wire connectors (AA) to connect the fixture's positive wire, negative wire to the corresponding wires from the junction box. Connect the ground wires to the grounding terminal.
 - Ensure no exposed conductors remain outside wire connectors or outside the junction box.
 7. Unscrew the socket cover (G) from the socket. Install the glass shade (H) and secure it with the socket cover (G).
 8. Install the light bulb (bulb not included). Do not exceed maximum wattage.
- Installation is complete.

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.

1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock, be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
