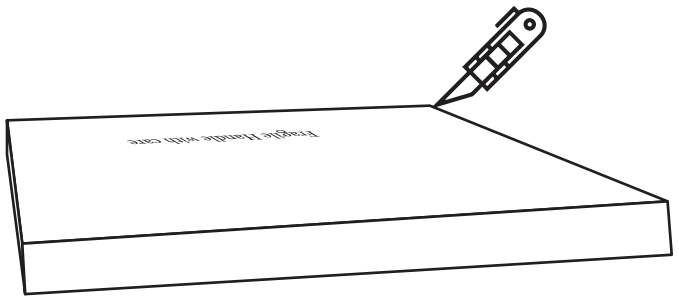
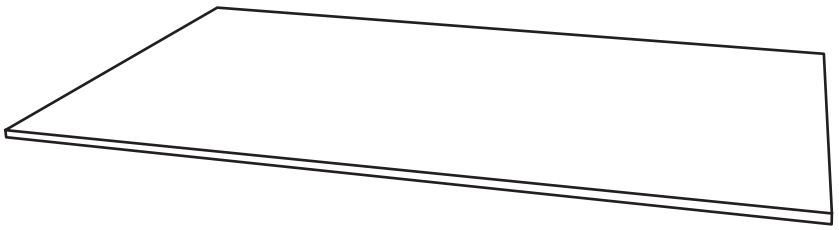
1



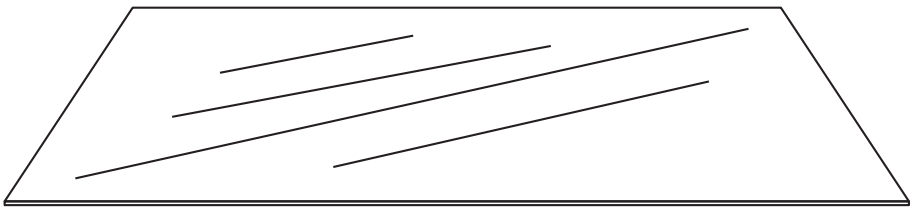
Packaging
Here we will open this package its wrapped with sheets of Styrofoam and OPP (Plastic) for protection.

2



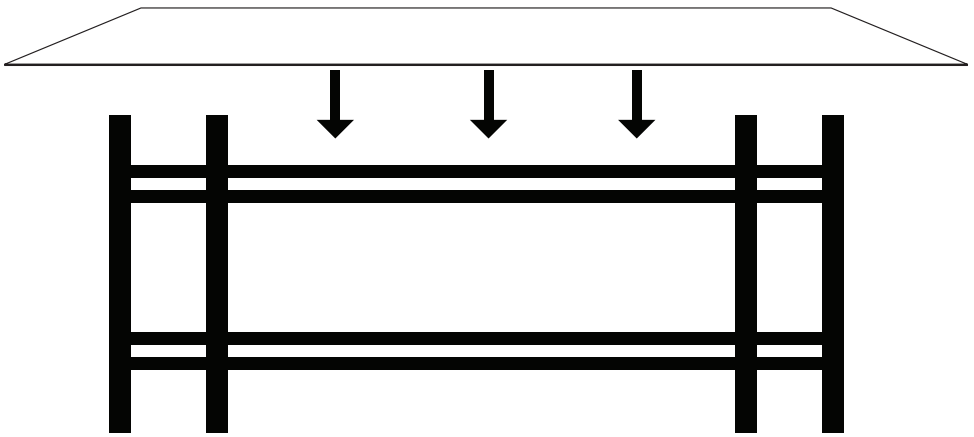
Shape
It's Rectangle glass table top.

3



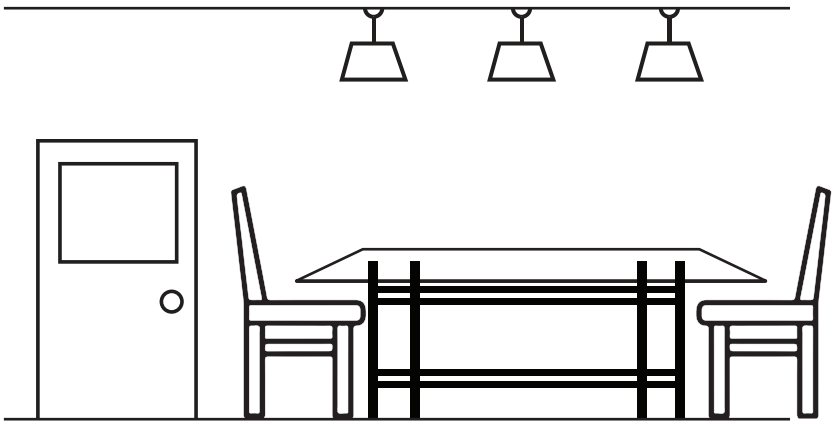
Tempered Glass
This tempered glass is toughened through a process of extreme heating and rapid cooling during manufacturing process. When it's broken, it shatters into many small fragments which prevent major injuries.

4



Glass placement on Base
Handle the glass with solid care while placing it on the base so it might not cause any harm or damage.

5



Usage Environment

Congratulations, your table is ready for use! Most suitable choice for Kitchen, Lobby, dining and room table.
