## LEGEND

- ☐ Product rated for Interior & Exterior use
- Product rated for Interior use only
- † May be suitable for Exterior Floors
- ∅ Applications & ANSI Technical Specifications do not apply
- \* Special Order only

Use of a leveling system during installation is strongly recommended

† The TCNA does not rate products for exterior floors. Project specifier must determine product suitability for exterior floor applications by evaluating specific project conditions, type of use, traffic, drainage, expected contaminants (such as water, oil, grease, etc.), wear, maintenance, and manufacturer's specifications and guidelines. Use caution--product may not be suitable for pool decks. Not suitable for ramps. No polished tiles; only textured surfaces may be suitable.

For installation of all polished, polished glazed, or lappato porcelain or ceramic tiles, use a grout release prior to grouting to prevent absorption of the grout into the tile's micropores. We recommend use of a grout color that matches the predominant color of the tile. Tiles with a polished finish are not appropriate for wet or exterior floor applications. Do not use acidic cleaners.

Merchandising materials and samples are for general reference only and representative of a product's potential characteristics. Tile is subject to variation in color/shade, size, texture, and finish. Field, mosaic and trim tile may not match exactly. Blend tiles from different boxes to achieve consistent shade distribution. Installer and end user must conduct a dry mock layout under proper lighting conditions to inspect the product. Installation constitutes product acceptance. Improper installation, application, use, care and maintenance voids warranty. Reference the TCNA Handbook and ANSI for installation guidance.
