

veradek ——— outdoor

DEMI SERIES

raised long thirty

very easy, very fun
planter stand
assembly instructions

#MYVERADEK | @VERADEK

let's put it together

(you're basically
already done)

gather your
parts, there
should be 14

x1 stand base

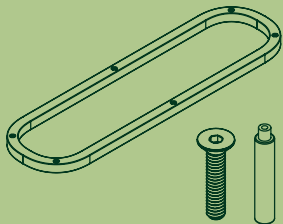

x6 stand legs

x6 screws

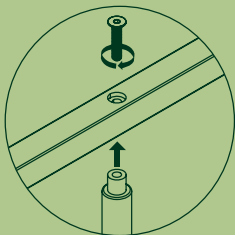

x1 allen key

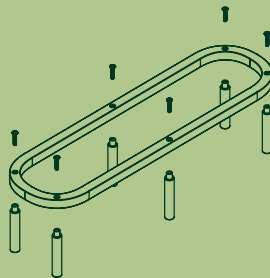

step 1

Take your stand base and locate a pre-drilled hole. Place a stand leg into the larger opening, it should fit securely.

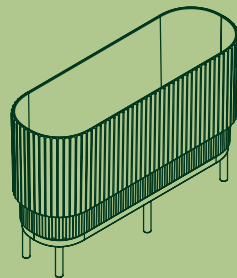

step 2

Take a screw and place it into the opposite end of the pre-drilled hole. Tighten the screw using the allen key. Remember righty tighty lefty loosey.

step 3

Repeat step 1 and 2 with the remaining 5 legs and screws.

step 4

Place planter on stand.
