

1. Don't tighten the screws. Connect the middle two trays to the side bracket with screws.

Two pieces of side bracket

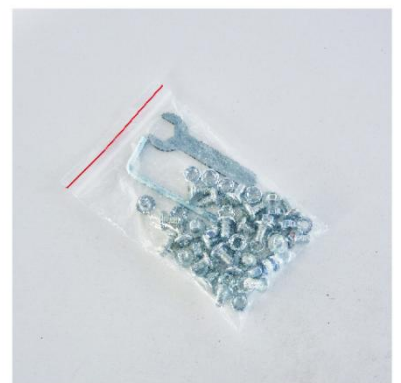

Six pallets

2. Don't tighten the screws. Connect the middle two trays with screws.

Four brake pulleys

A package of screw accessories

3. Don't tighten the screws. Connect the bottom two trays with screws.

5. Don't screw too tightly so that the height can be adjusted. Turn the flower rack upside down and install the pulleys.

4. Then tighten the screws in turn. Make sure the four legs of the flower rack are in the same horizontal position. Then put the flower rack on the flat ground.

6. The installation is completed.
