ASSEMBLY INSTRUCTION

ADJUSTMENT INSTRUCTION

If the glass are not level, please follow the INSTRUCTION as below to adjust the glass:

1. Use allen key(b) to loose the screw (a) about 20%.
2. Then use #3 allen key(c) to adjust the adjustable screws which pre-fasthened inside the pillars. The more the adjustable screws in, the more the matching corner of the glass will be raised up. Adjust the 4 adjustable screws on each pillar to level the both glass tops.
3. Then confirm the two glass tops are align and level, then fasthen all screws (a) tightly.
