

COTTON RUGS

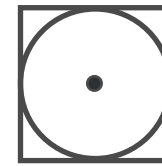

WASHING and CARE INSTRUCTIONS

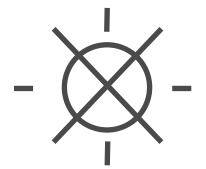

Wash separately at
30° max.

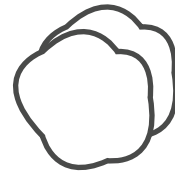

Use a gentle cycle
without bleach.

Tumble dry at
low temperature.

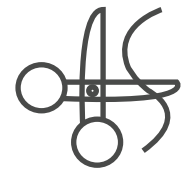

Avoid continuous
exposure to sun.

Do not worry if fluff
appears.

Sweep the rug with a stiff broom
and use a vacuum cleaner regularly.

Cut long or loose threads,
never pull them.

Before using, we recommend putting the rug in the dryer to take out the wrinkles of being folded.
If you are going to store it or take it to the laundry, use our practical cotton bag, never use an airtight plastic bag.
