If there is any problem, please feel free to contact our customer service team and we are always here to assist with you!

If there is any slight dent or damage, you can try to fix it by pliers or hammers or contact us.

Installation Steps

Step 1: Put two cross legs 3 on a flat surface.

Step 2: Insert left side panel 1 into the cross legs 3 on the left

Step 3: Insert right side panel 2 into the cross legs 3 on the right

A*4	Step 4: Fix 1, 2 and 3 with screws A	
 M5*12MM		

A*4	Step 5: Insert left back panel 4 into the cross leg 3 and connect it with 1 by screws A 
 M5*12MM	

A*4

Step 6: Insert middle back panel 5 into the cross leg 3 and connect it with 4 by screws A

A*8	Step 7: Connect right back panel 6 with 5 and 2 by screws A	
 M5*12MM		

Step 8: Put the bottom panel on cross legs

A*10

M5*12MM

Step 9: Insert middle side panels 9 and 10 into the cross leg 3 and connect them with back panels by screws A

G*8	H*4	Step 10: Attach hooks H on the side panels, 1, 9, 10 and 2 with screws G
		

Step 11: Place the top panel on the top

After the screws are tightened in the subsequent step, the top panel will be properly aligned.

A*11	Step 12: Fix the top panel with screws A	
 M5*12MM		

Step 13: Install left shelf 11

Step 14: Install middle shelf 12

Step 15: Install right shelf 13

G*4	I*2	Step 16: Attach hooks G on the left shelf 11 and right shelf 13 with screws G
		

C*20

Step 17: Install the door silencers C

Step 18:

M8

B*2

M5*30MM

M5

Fix the locker on the wall
to prevent tipping

D*10

Step 19: Install the locks D on the doors
(The lock instructions video is on the last page)

E*3	F*10	Step 20: Install the doors 12 and 13
		

Step 21: Install all the doors

For the bottom three doors: Insert the door pivots E into the holes of the right bottom corners(shims F can be used to adjust, you can use 0/1/2 of them), then insert the doors into the door pivots on the bottom and adjust the springs (already pre-installed) on the right top corners For the other doors: Insert the doors into the lower doors' spring pivots of the right bottom corners and adjust the springs on the top
So only three E are needed
