HON

Solve Task Seating

With three back materials, synchro-tilt control and an optional adjustable lumbar support, Solve answers the need for a higher level of personalization. The 4-Way Stretch mesh back provides responsive support and a softer fit. The geometric ReActiv back flexes and moves with the user to provide a firmer fit, and an upholstered front can be added to increase support and thermal comfort. Solve helps anyone achieve optimal balance and alignment, making it an ideal solution for everybody.

Rating Systems, Standards, & Frameworks

Check credits for Common Materials Framework (CMF), LEED, WELL, Living Building Challenge, and other ratings systems, standards, and frameworks. To access sign-in or register for free.
