

Wall Sconce

AFTER-SALES SERVICE

Our team always insists on the principle of quality first and customers first!

PLEASE READ THESE INSTRUCTIONS CAREFULLY. FOLLOW ALL INSTALLATION INSTRUCTIONS AND OBSERVE ALL WARNINGS

WARNING

-Turn the electricity off at the main circuit breaker panel before installation. Thoroughly wash hands after finishing.
-Remove the fixture and the mounting package from the box and make sure that no parts are missing by referencing the illustrations on the installation instructions.
-All electrical connections must be following local and National ElectricalCode (N.E.C.) standards. If you are unfamiliar with proper electrical wiring connections, please ask for help from a qualified electrician.

CAUTION

The glass shade is fragile, please take care of your hands when handling glass components or lamps.

INSTALLATION STEPS

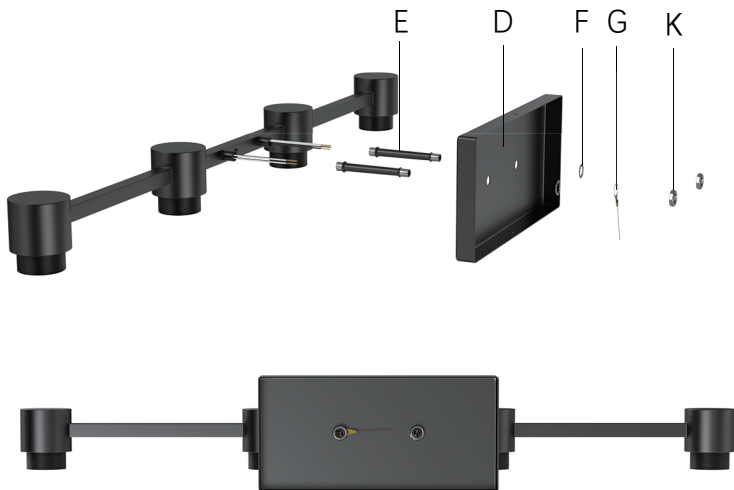

STEP 1

Connect the AB parts to each other and fix them with screws.

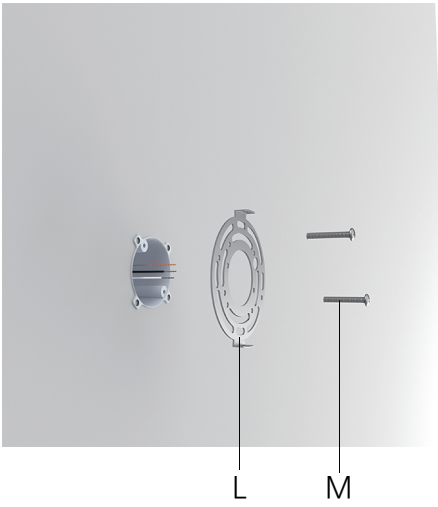

STEP 2

Attach the mounting units to the base of the fixture back plate, in the order shown in the picture below.(E to K)

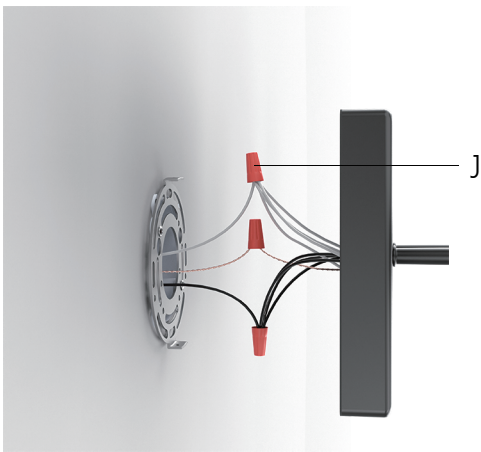

STEP 3

Attach the screw to the mounting plate and drill the plate to the wall(L to M), and take sure that handle attach in vertical.Take the wire out of the middle of the plate.

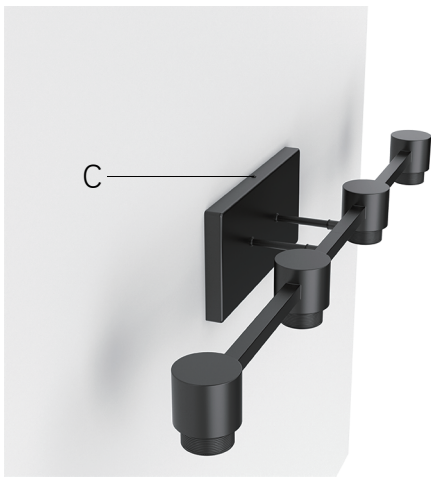

STEP 4

Install the insulating cover over the connected wires.

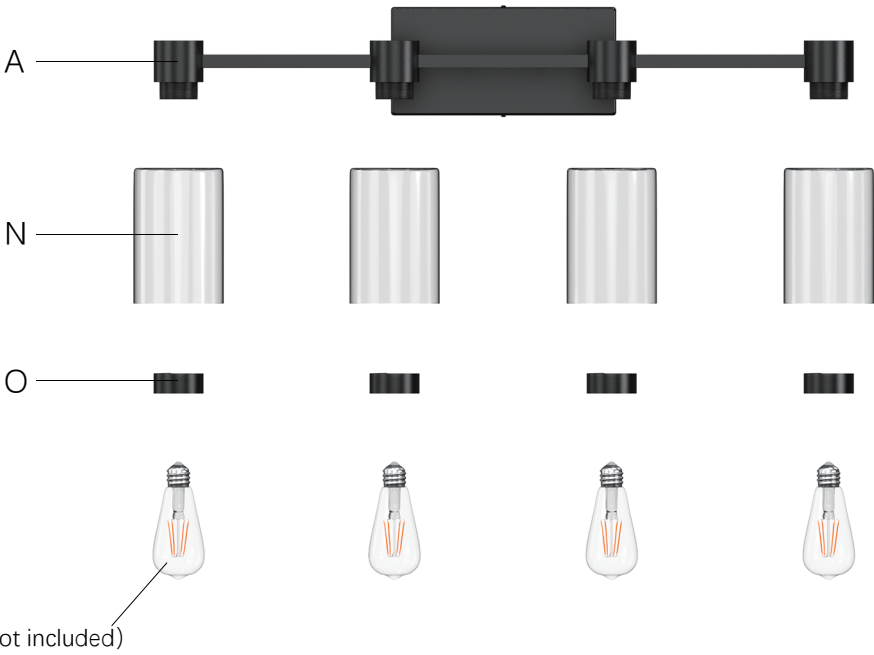

STEP 5

Mount the fixture back plate on the mounting plate with screws.

STEP 6

Make sure that power in your home is off. Fix the fixture back plate to the ceiling or wall, and install the lampshade and bulb in sequence.Pay attention to the installation position to ensure that the wall sconce can be fixed at the ideal angle later.

Turn on the light and enjoy the warm lighting.

Also, we have pointed screws as well as expansions for when you don't have a pre-installed base in your home. Mounting plate can be mounted directly to the wall using pointed screws and expansion.
