

How many boxes do I need?

Go to end of the design page

1

Enter your total sq ft

Scroll down to the calculator on this page

2

Add to cart the units shown

1,300 sq ft = 30 Units needed

How much do you need?

Calculate by:

☒ Total Area ☐ Length x Width

Sq. Ft.

1300

☒ Add 10% for waste and reserve ⓘ

30 Units (1449.9 Sq. Ft.)

(1 Units = 48.33 Sq. Ft.)

The calculator already includes 10% for waste!
