

Before installing this product, please disconnect the power supply, determine the installation method and the load-bearing capacity of the wall. We recommend installation by professional electrician. Tip: Please follow the instructions to install this product, don't DIY install it.

Installation Steps:

Step 1: Assemble the straight pipes to the length you need.

Step 2: Connect the wires inside your wall box, insert the wires into the connections and tighten them, then screw the hangers to the wall. (l = positive n = negative, E = grounding) . If you do not have a wall junction box, drill a hole in the wall according to the hole position of the Hanging Board, install the expansion plug in the part package, and then screw the hanging board to the wall.

Step 3: After assembling the lamp body, arrange the power cord; the two screws of the hanging plate pass through the two side holes of the suction top plate, and lock it with the plum blossom grain.

Step 4: Take out the outer ring of the lamp holder, put the glass shade in and lock it with the outer ring.
