

SOFA DELIVERY & UNBOXING CARE GUIDE

1

DELIVERY

Our sofa comes in 2 box and may be delivered at different times.

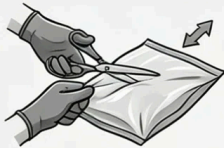

2

PATIENCE

Please be patient for a few days, and your sofa will be delivered to you.

3

OPENING

Carefully open the compression bags, making sure not to damage the items inside with scissors.

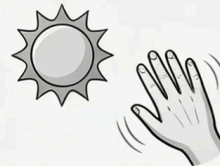

4

WRINKLES

Due to the packaging compression for shipping, the fabric may have wrinkles. This is normal, so please don't worry.

5

SUNLIGHT & PATTING

Place the sofa in sunlight and gently pat each section.

6

CUSHION CARE

At the same time, massage your cushions as if you're fluffing them, allowing the air to fully circulate through the foam.

7

72H

RESTING

Then let the sofa sit undisturbed for 72 hours.

8

IRONING

If there are still minor wrinkles, you can try ironing the sofa.

TIP

1. Our sponge sofas are made with an upgraded wrinkle resistant fabric and advanced mattress technology. Minor wrinkles and bends are normal and are not considered a quality issue.
2. Due to differences of light effects and fabric's reflective nature, the actual color of the materials might be slightly different from the pictures.
