Assembly Steps

Overview

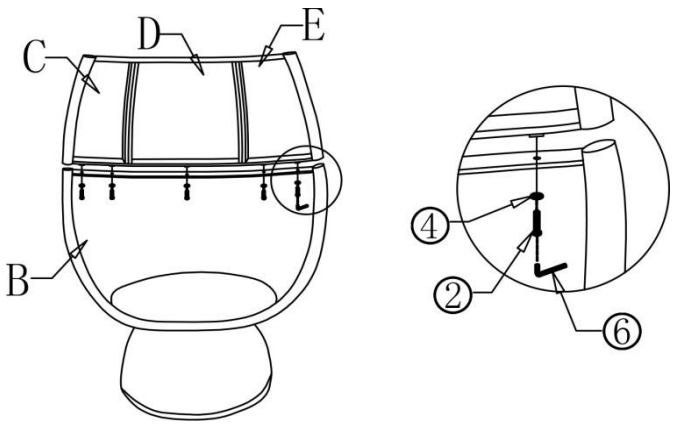

This Swivel chair has multiple parts and may require up to 60 minutes to assemble. To give you an overview of the chair parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

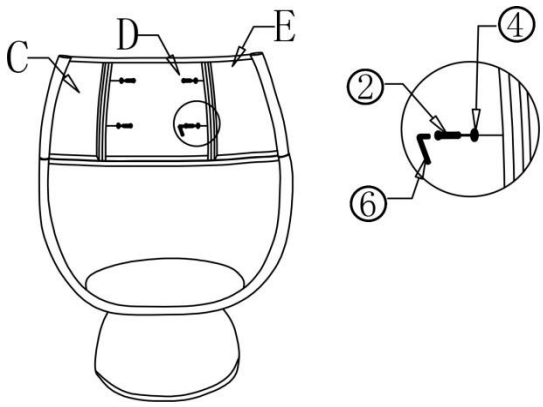

Open the carton and place all the parts onto a clean, non-marring surface.
Place Seat Panel (B) on the ground, then attach the Base (A) to the Seat Panel (B) using Bolts（①）and Washers (③、④) with Allen Wrench (⑥) as shown in picture above.

Step 2

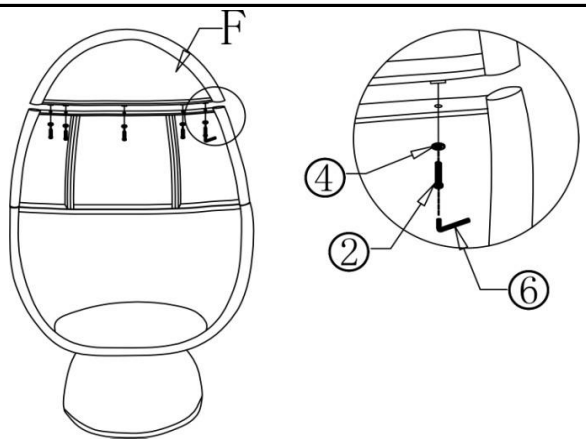

Turn the Basket Seat (A) over as shown in picture.
Attach Left Panel (C), Middle Panel (D) and Right Panel (E) to Basket Seat (B) using Bolts (②) and Washers (④) with Allen Wrench (⑥) as shown in picture above.
Do not fully tighten the bolts.

Step 3

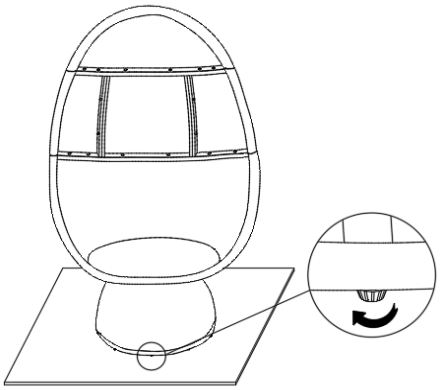

Join the Left Panel (C), Middle Panel (D) and Right Panel (E) together using Bolts (②) and Washers (④) with Allen Key (⑥) as shown in picture above.
Do not fully tighten the bolts.

Step 4

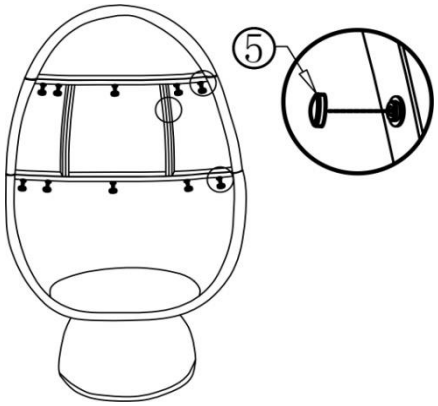

Attach the Top Panel (F) to the Left Panel (C), Middle Panel (D) and Right Panel (E) using Bolts (②) and Washers (④) with Allen Wrench (⑥) as shown in picture above.
Do not fully tighten the bolts.

Step 5

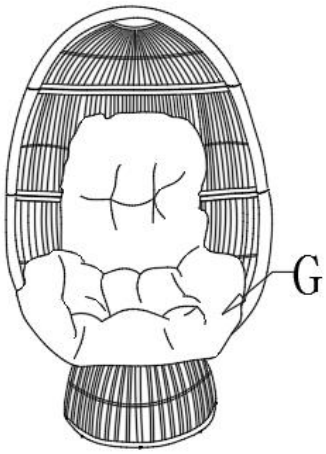

Check for stability and then tighten all Bolts at all joints.
Adjust the Legs Pre-installed Levellers until the chair level with the ground.
Note: DO NOT fully tighten a Bolt in one go and then move on to the next.
Rather in a sequential manner, gradually tighten each Bolt until all Bolts are evenly secured.
This methodology will ensure maximum evenness once all Bolts are fully tightened.

Step 6

Add the Nut Caps(⑤) on the 15 Bolts as shown in the picture above.

Step 7

Place the Cushion(G) on the Basket.
Your Swivel Chair is ready for use.
This Chair can only be used on a flat, level surface.
