

ASSEMBLY INSTRUCTION

PLEASE DO NOT RETURN TO STORE

**Please do not return this product to the retailer!
We are able to assist you in ANY way!**

**If you find that you have any trouble with assembly or
missing or damaged parts please contact the seller.**

Please carefully review the following precautions before proceeding with the installation:

1. The installation process for this product is complex, and it is highly recommended to have at least two individuals working together during the installation.
2. Prior to each step, please refer to the screw hole positions to ensure that the board is aligned correctly according to the images provided in the instruction manual. This will help prevent any errors.
3. In case power tools are used for installation, it is important to tighten the screws intermittently rather than applying excessive force continuously. This precaution will help avoid potential cracks around the screw holes.
4. If you encounter any difficulties or issues during the assembly process, please don't hesitate to reach out to us via email . We assure you that we will address your concerns and provide a solution within 24 hours.

Thank you for your attention to these important instructions.

Easy Installation:

-Can rotate the combination dial clockwise or counterclockwise

Set Your Own Password

-The password can be changed instantly
-No special tools required

1000 Combination Options

Change the password simply by pressing the button and setting the code in just a few seconds

Important Notes:

Password Setting

1. Password must be set when the lock is unlocked (default password is 0-0-0)
2. The reset position is located at the small hole on the lower edge of the outer ring; rotate the head until the internal button becomes visible (Can be used with accessory O)
3. Insert a small cylindrical rod into the button, press it down, and rotate the combination dial to align your desired numbers in the center
4. Release the button to complete the password setting

Locking & Unlocking

Rotate to lock the device

After locking, randomly turn one or all combination dials to secure the lock

To unlock, rotate the dials to match the preset password
