

Rattan Sideboard

ASSEMBLY INSTRUCTIONS

Thank you for purchasing Mufico products. Please contact us if you have difficulty with assembly or need replacement parts. Mufico customer service is here to assist you. Please attach your User Name or Order ID so that we can assist you better.

Manufacturer: Fuzhou Bloom Homeware Co., Ltd.

Phone Number: 86-0591-83590640

Address: No. 88, Sanzhan Village, Wenwusha Town, Changle District, Fuzhou City, Fujian Province, China

Email: hzymx2023@163.com

ASSEMBLY CHECKLIST

1. Assembly should be carried out by a competent adult only. Suggest 2 adult.
2. Regularly check all parts and ensure that they are firmly fixed for safe use.
3. Read the instructions thoroughly before beginning assembly.
4. Always assemble the product on a soft surface such as carpet or cardboard to avoid scratching or damaging the surface of the product.
5. Identify and lay out all components so that you are familiar with them.
6. Do not fully tighten all screws until the step/process has been completed.

Useful Information

1. Never Use power tools as they can damage components or hardware if used incorrectly.
2. The most common mistakes are made during assembly from using the wrong hardware or getting components back to front.
3. Always assemble the product on a soft surface such as carpet or cardboard to avoid scratching or damaging the surface of the product.
4. Placez les articles les plus lourds sur la tablette la plus basse.
5. Ne laissez jamais les enfants grimper ou cogner sur les tiroirs, les portes ou les étagères.

WARNING

Serious or fatal injury may occur from unexpected assembly or use.

1. During the assembly process, keep all parts away from babies or children.
2. Always install tipover restraint provided. Make sure the wall area to be drilled is free from hidden electrical wires, water and gas pipes.
3. Use of tip-over restraints may only reduce, but not eliminate the risk of tip-over.
4. Unless specially designed to accommodate, do not set heavy objects on top of this product.
5. Place the heaviest items on the lowest shelf.
6. Never allow children to stand, climb or hang on drawers, doors, or shelves.

INSTRUCTIONS FOR CAM-BOLT(A)& CAM-LOCK(B)

CAM-BOLT

CAM-LOCK

Tools Required

INSERTING AND TIGHTENING CAM-BOLT

Place Cam-bolt on pre-drilled hole and screw in vertically

Shoulder is flushed (on the same level) with the panel.

Shoulder is above the panel.

Place Cam-bolt on the designated pre-drilled hole on the panel. Use a Phillips Screwdriver to screw-in Cam-bolt vertically. Until shoulder is flushed (on the same level) with the panel.

INSERTING CAM-LOCK

Insert Cam-lock with arrow align to Cam-bolt head

CORRECT

WRONG

Align the arrow on the Cam-bolt to the Cam-bolt head and insert the Cam-lock. Ensure Cam-lock is fully inserted.

TIGHTENING CAM-LOCK

Use a Flat-head Screwdriver to turn Cam-lock clockwise so it locks onto the head of the Cam-bolt. Turn until it is snug (about 3/4ths of a turn) -- over-tightening could damage Cam-lock or/and Cam-bolt.

STEP 27

WALL

After installation, move the cabinet to the position you need, and drill 2 holes on the wall at the corresponding position according to the height and position of the anti-falling device. Firstly, put the plastic screws "Z" into 2 holes separately, and then use the "C" screws to lock the parts "X" with the plastic screws "Z" separately.

	C x 2PCS
	X x 2PCS
	Z x 2PCS

STEP 28

After that, move the cabinet to the corresponding position, then use the part " Y " to pass through the part " X ", and tighten it. The installation of the anti-falling device is completed.

WALL

Y x 2PCS

The ways to adjust the door

- Before adjusting the hinge, please check whether the cabinet is skewed.
- If the skew can not be repaired, please remove the anti-tipping device first, then adjust the cabinet to vertical position.
- Please adjust the hinge with the door open.
- Please operate it with more than 2 people, one person holds the door and the other one adjusts the screw.

Components Name

When door is crooked

Please take the following steps to adjust first.

- 1 Rotate the "front and rear screws" to the left

※ After adjusting the "front and rear screw", the door still does not change, please turn the "internal & external screw" to the right slightly.

- 2 Push the door to the cabinet

- 3 Rotate the "front and rear screws" to the right

When door is leaning

- 1 Turn "internal & external screw" to the left can make the top of the door tilted outward.

Protruding to the upside

- 1 Turn "internal & external screw" to the left can make the bottom of the door tilted outward.

When 2 doors are not tight

- 1 Turn "internal & external screw" to the right can make the door approach inside. Please adjust the doors little by little.

※ If the 2 doors are overlap, please turn the "internal & external screw" to the left.

When the door is higher on top

- 1 Turn "up & down screw" to the left

- 2 Lower the door's height so that 2 doors are of the same height.

- 3 Turn "up & down screw" to the right

※ If the door is lower on bottom, please lift up the left door slightly on step 2
