Product List & Setup

Flower pots
*12 pcs

Drainage Tray
*6 pcs

Drip irrigation
hose set 3m

2m Drain
hose*1pcs

Non-woven
fabric*36

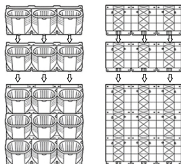

Plug Rubber
Stopper*1pcs

Connecting
hose*5 pcs

① Flower Pot Connection

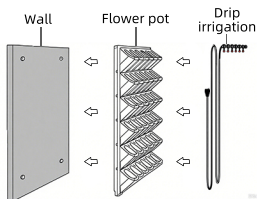

Snap-fit Connection - Easy Installation
Simply align and press to lock in place

↓↓↓ 1m² Installation Demo ↓↓↓

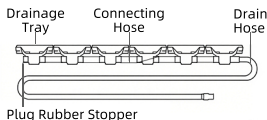

② Wall Planter Installation

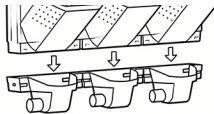

Step 1: Mount the flower pot to the wall with nails
Step 2:
Hang the drip irrigation tube above the flower pot
Step 3: Place the plant in the pot

③ Water Tray to Drain Pipe Connection

Attach the drainage device as shown, then snap it onto the bottom of the pot

Water cascades through each planter tier and drains via the outlet pipe, preventing wall splashes

④ Adding Plants to Your Wall Pot
