NOTE:

- 1、 Do not use an electric screwdriver.
- 2、 Two people are required to assemble this product. Assemble it on a flat, solid, and even surface.
- 3、 Make sure all the necessary parts are included in the package before starting assembly.
- 4、 Secure all parts and bolts loosely at first; fully tighten the screws only after the frame is completely assembled.
- 5、 If any instability occurs, loosen the screws, realign the components as needed, and retighten the screws evenly.
- 6、 This product is not a climbing frame or a toy.

Assembly Instructions

Step 5: Attach **Part A** to **Parts C, D,** and **E** using **Hardware ①** (M6 × 35mm bolts).

This product is made with **HDPE**, a material that has a natural wood-like feel and is fully recyclable. The panel bends slightly to fit your body when you sit on it, boosting comfort, and springs back to its original shape once you stand up. It also offers outstanding impact resistance and durability without cracking.
