Step 1

Install the eccentric connecting rods (A) into the corresponding holes of board ③④. The installation position is as shown below.

Step 2

Put the eccentric parts (B) and dowels (C) into the corresponding holes of board ①. Assemble boards ①③④ together, don't forget to use a flat blade screwdriver to lock part B clockwise to tighten. The installation position is as shown below

Step 3

Install the eccentric connecting rods (A) into the corresponding holes of board ② .

Fasten the (L) shaped iron piece (L) with screw (K)

The installation position is as shown below.

Step 4

Put the eccentric parts (B) and dowels (C) into the corresponding holes of board ③ ④

Assemble boards ② ③ ④ together, don't forget to use a flat-blade screwdriver to lock part (B) clockwise to tighten.

The installation position is as shown below.

Step 5

Insert board ⑤ along the slot ,the position is as shown below.

Step 6

Put the dowels into the corresponding holes first.

Install the board ⑥ and board ③ ④ together by screw (D).

The installation position is as shown below.

D X 4
4 X 40mm

C X 4
6 X 30mm

Step 7

Install the hinge (G) to the door panel ⑦ by screw (M). It may be necessary to adjust the hinges in order to align with the door.

Paste part (N) on the designated location.

Hinge the door panel ⑦ to cabinet's side panel by screw (M) together.

To adjust the door vertically, loosen the screw as shown and move the door up and down as needed.

To adjust the gap between the door and the main frame, turn the screw clockwise or anti-clockwise as needed.

Step 8

Step 9 Install the part ⑧ and part ⑨ together by screw (F) with hex screwdriver (H). The installation position is as shown below.

Step 10

Install the two components that have been installed in the previous two steps together by screw (E). And use hex screwdriver to tighten screw (E). The installation position is as shown below

Step 11

The door can be installed on the left or right side.

The foot pads are used to adjust the height to avoid uneven door panels.

Step 12

Use the screws in component (I)(J)to fasten the back
place buckle
The installation position is as shown below

I X 4
3 X 14mm

J X 4

Step 13

First drill a hole on the wall where it is placed, and
then press the expansion screw (L) into the hole , to
fix the cabinet by screwing (D) into (L) .
The installation location is as shown in the figure
below

D X 1
4 X 40mm

L X 1
