

Installation – English

1. Position the grille

Place the V1 decorative grille over the ventilation opening.
Ensure that it is centered and level.
Mark the position of the two mounting holes located at each end of the grille.

2. Secure the grille

Using two screws suitable for the surface type, secure the grille firmly against the wall or ceiling.
Avoid over-tightening the screws to prevent damaging the wood.
Check that the grille is securely mounted and stable.
