	<ul style="list-style-type: none">■ Initially, the light is turned off.■ Press 1st time: Constant On Mode.■ Press 2nd time: Night Sensing Mode. (The night sensing mode will be entered after the light flashes three times)■ Press 3rd time: All day Sensing Mode. (The all day sensing mode will be entered after the light flashes two times)■ Press 4th time: Return to the closed state, and repeat this cycle.
	<ul style="list-style-type: none">■ Press button: Cycle through the light colors.■ Holding button: Adjusts the brightness.

Sensing range and its precautions

- The sensing range of the light is 120° from the center point of the probe, within a 3 meter area.
However, improper installation or obstructions near the sensing probe may affect the sensing effect.

Installation instructions and precautions

【Installation steps】 :

1. Clean and dry the surface of the mounting location.

2. Place the iron sheet on the back of the light finding out the position of the built-in magnet.

3. Remove the adhesive sticker and stick it to the mounting position.

4. Installation is completed.
(The light is magnetically attach on the iron sheet and can be taken off at any time.)

Charging instructions

- Charging voltage: DC5V/1A
- Charging port: Type-C
- Charging indication: Red light - charging / Green light - fully charged

Precautions

1. Please fully charge the battery before using it for the first time.
2. Do not use a charging devices with an output voltage greater than 5V/1A to charge the lamp.
3. Please use a safety-certified mobile phone charging adapter to charge the light.
4. Do not use while charging.
5. Keep away from fire. Do not use this light in a damp or high-temperature environment. Do not allow children to use or come into contact with this light. Do not attempt to repair or replace any parts by yourself.
