💧 CARE INSTRUCTIONS

- **Canopy Cleaning:** To clean the canopy fabric, use mild soap or warm water with a clean, dry cloth or a soft brush to remove spots. Never use solvent-based detergents, as these may bleach the material and damage the fabric. Do not use alkali or acidic detergents or steam cleaners.
- **Frame Cleaning:** To clean the umbrella frame, wipe it with a mild soap solution. It is not recommended to clean plastic or metal products with strong cleaners or abrasive materials, as they may discolor or damage the surface.
The umbrella frame is painted with a powder coating of plastic paint for protection. The frame will not be protected once the coating is damaged (e.g., rusting).
- **Frame Repair:** To repair a damaged frame, repaint it to restore its protective coating.
