WARNING

ADULT ASSEMBLY REQUIRED

DUE TO THE PRESENCE OF SMALL PARTS AND SHARP POINTS DURING ASSEMBLY, KEEP OUT OF REACH OF CHILDREN UNTIL ASSEMBLY IS COMPLETE.

> Read all instructions before beginning! <

NOTE:

Sand is not included. You can purchase it separately from most home improvement and hardware stores, or have it delivered from many local garden centers/landscape supply companies. You will need approximately 1200-1500 pounds of sand to fill the sandbox 5-6 inches deep.

If you want the sandbox to be deeper, assemble the sandbox and then mark the ground following the INTERIOR edges of the box. Move the sandbox aside and excavate within the marked area to the depth that you desire. Place the sandbox frame around the excavated area, and fill with the amount of sand desired.

It's helpful to use landscape fabric beneath the sand/sandbox (also found at hardware and home improvement stores), particularly if you excavate a hole to make the sandbox deeper. You can also place garden fabric under the sand to prevent weed growth. We do not recommend using garden plastic so the sand drains properly.
