

5 TIER WALL SHELF

Please follow this illustration step by step, and don't hesitate to contact us if you have any questions during installation, we are here to help.

Panel A x6

Panel B x 5

Dual-purpose Screwdriver x1

Wall plug x 6

Screw A x 20

Screw B x 6

INSTALLATION STEPS

① Please find one of the panel A and panel B, connect them by screw A like the illustration with provided screw-driver.

② Please find another panel A and connect it to the panel B which had been intalled in step ①.

③ Now install another panel B as shown in the figure.

④ Use the same method to install the rest A and B panels.

⑤ Please put the shelf onto corner of wall wherever you like. Then mark the location of the 6 holes on the wall with provided screw-driver or marker pen.

Put the shelf down from the corner, drilled at the mark location, then insert the 6 plugs in drill holes.

⑥ Finally put the shelf onto the corner of wall again, please note the location of holes in panels and plugs in the wall, then tighten all the 6 B screws to finish the installation.
