Dear Ms. Davis:

One (1) fabric sample, identified as **Deco**, was received and tested in accordance with the California Technical Bulletin 117-2013, Section 1, Cover Fabric Test. The results are as follows:

**Test Results**

| <u>Vertical Char Lengths</u> |      |      |
|------------------------------|------|------|
| 20mm                         | 21mm | 22mm |

The sample submitted **meets** the requirements of the above standard. There were no ignitions or smoldering after 45 minutes on any of the three specimens tested. In addition, none of the three test specimens displayed a char which was greater than 45 mm.

Sincerely,

Brian S. Dement

BSD/mr
