

Installation Instructions

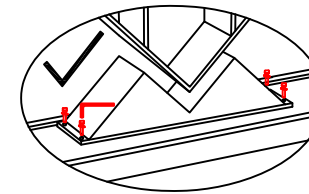

Step 1:
Install the W part to the table top, black back of the 2 parts need to face the same side. Put the 4 screws into the holes at the same time and tighten them with an allen wrench.

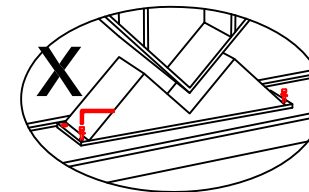

Step 2:
Attach the square center to the installed W part, put 4 screws together into the holes and tighten 4 screws with an Allen wrench.

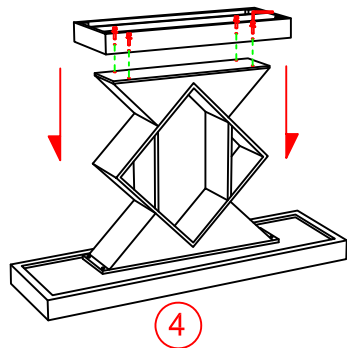

Step 3:
Attach the W part to the installed square center, put 4 screws together into the holes, and tighten them.

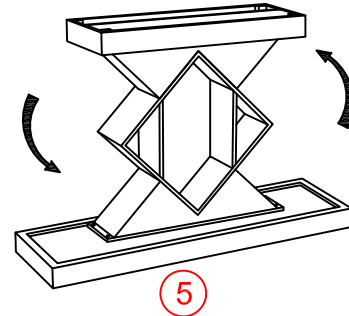

Right Method:
Put 4 screws into the holes at the same time, and tighten them.

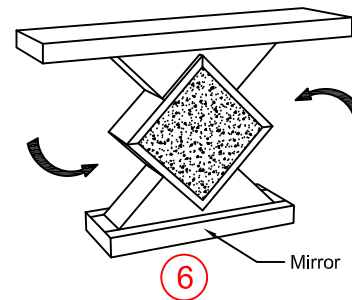

Wrong Method:
After tightening one, place the other screw in the hole.

Step 4:
Attach the table base to the installed W part, put 4 screws together into the holes and tighten them.

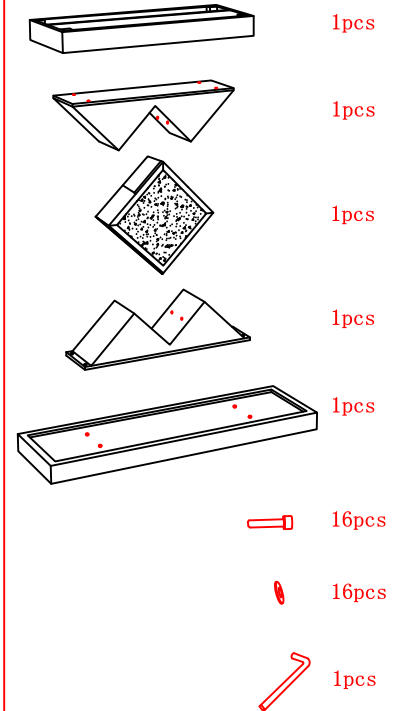

Step 5:
Now that the entire table is installed, try shaking it to see if it is stable.

Step 6:
Turn the whole table around, with the base facing down.

PARTS LIST

Note: * When installing the table top upside down, it is better to install it with a foam pad at the bottom or on a soft carpet, otherwise it may scratch the table top.

* When installing a part, do not install another screw after tightening one screw, otherwise the other screw may not be screwed in.

* The back of the entry table is black! Please be careful to install each part facing the same side when installing. The mirror is on the same side as the mirror. Black MDF and black MDF on one side.
