All Accessories for Assembly

Application

It is suitable for all kinds of cats to jump, scratch, sleep, climb, play, etc. The cat should be lighter than 33 lbs. And you can place this cat tree in your living room, bathroom, balcony, playroom, study room, and so on.

Notes

1. This type is fit for a ceiling height of 100.4-104.3". Please confirm the ceiling height before purchase. Selecting the right height for the product can ensure its stability, otherwise, it will cause the cat tree to be unstable.
2. It is recommended for cats lighter than 33 lbs.
3. You can place the cat tree somewhere away from your furniture so that there will be fewer scratches added to your furniture. You can prepare a soft pad under the baseboard to prevent it from scratching the floor.
4. A small number of cats may not like to be close to or adapt to the product when they first come into contact with it. After half a month to a month of adaptation, they will like it.
5. If you have several big fat cats, you can buy two sets and install them together.
6. Considering cats' sharp claws, it is necessary to replace the post after using it for a long time.
7. Please allow the slight color difference caused by the shooting light and 1-3cm error due to manual measurement, and make sure you do not mind before you order.
