### Step 4

Attach Wooden button (7) on the Front Left Leg(B),Front Right Leg(C).

## Step 5

Place the dining chair on a **LEVEL SURFACE** to check for wobbles. If it wobbles, lift the dining chair to some 30cm to 50cm in height from the ground.

Keep your feet and toes well away from the drop zone.

drop the dining chair freely and vertically with the four legs, hitting the ground, all at the same time.

This drop test will help to ensure that all the bolts and gaps all reach full alignment status.

Test again for evenness on a **LEVEL SURFACE**.

If no wobbles are found, slowly and steadily turn the dining chair upside down.

Then, proceed to tighten all bolts in a sequential manner.

**CAUTION:** When tightening these bolts, tighten sequentially.

**DO NOT** tighten any screw fully and then towards the next one.

This would cause the frame to warp.

If there is still wobbles, loosen the bolts and execute these same drop tests.

**WARNING!! IF Dining CHAIR IS NOT STABLE, IT COULD LEAD TO DAMAGING THE PRODUCT.**

Your chair is ready for use .  
This chair can only be used on a flat, level surface.
