

## How many boxes do I need?

[View our online design page](#)

### 1 Enter your total sq ft

Scroll down to the calculator on this page

### 2 Add to cart the units shown

1,300 sq ft = 30 Units needed

### How much do you need?

Calculate by:

Total Area  Length x Width

= Sq. Ft.

1300

Add 10% for waste and reserve ⓘ

**30 Units (1449.9 Sq. Ft.)**

(1300 + 48.32 Sq. Ft.)

The calculator already includes 10% for waste!
