

STEP-BY-STEP FLOATING SHELF INSTALLATION GUIDE

Step 1: Unpacking and Preparation

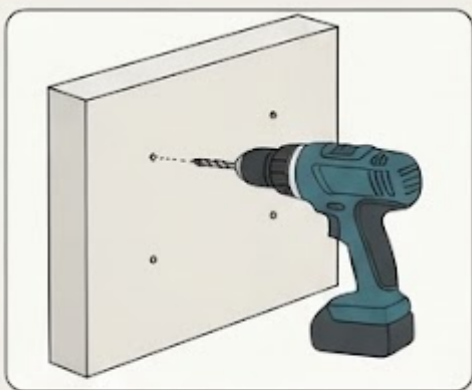

Ensure all components are present before beginning. Identify the correct shelf types.

Step 2: Bracket Installation

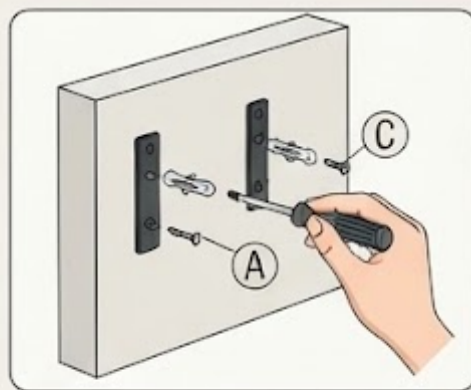

2a. Leveling and Marking

Use a level to mark bracket positions. Ensure they are perfectly level.

2b. Drilling

Drill pilot holes using the appropriate size drill bit for your wall anchors.

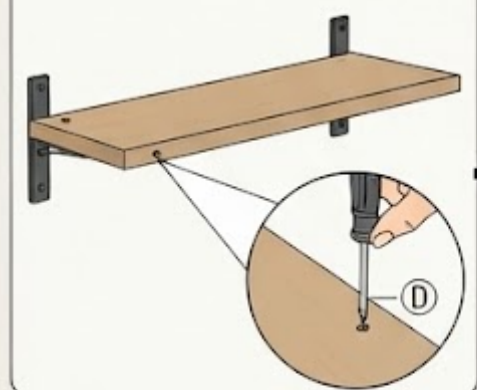

2c. Securing Brackets

Insert wall anchors (if needed) and securely fasten brackets (A) to the wall.

Step 3: Shelf Attachment

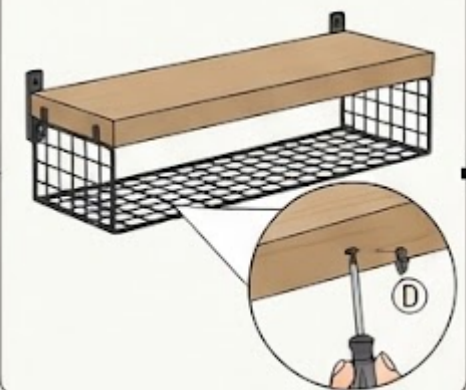

3a. Plain Shelves

3a. Plain Shelves

Slide plain wood shelf onto brackets. Secure with small wood screws (D) from underneath.

3b. Shelf with Cage

3b. Shelf with Cage

Slide metal cage shelf onto brackets. Secure with small wood screws (D) from underneath.

Installation complete.

Ensure shelves are stable before placing items.
