Venture Out 1

D1485S29698-2553

Venture Out is reminiscent of the work of 20th-century American painter Robert Ryman known for his unique approach to monochromatic painting. A balanced composition is the focal point of this minimalist work on paper. The color scheme combines with the dense use of materials and gestural marks that provide the work with a structural feel. The limited color palette of cream, champagne, and sand ties together the work.

A graceful complement to Smooth Pursuit, Venture Out invites a moment of quiet reflection through abstract forms in a pleasing neutral palette. Part of the carefully curated ART by TA Collection.
