

WAND AND HOSE COMPATIBILITY

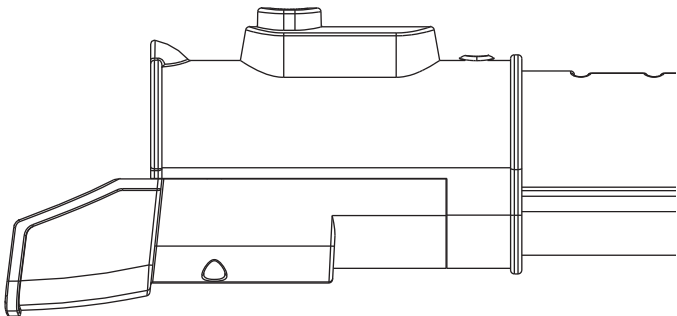

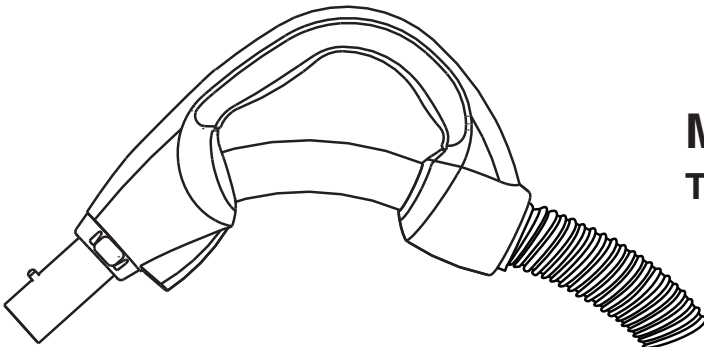

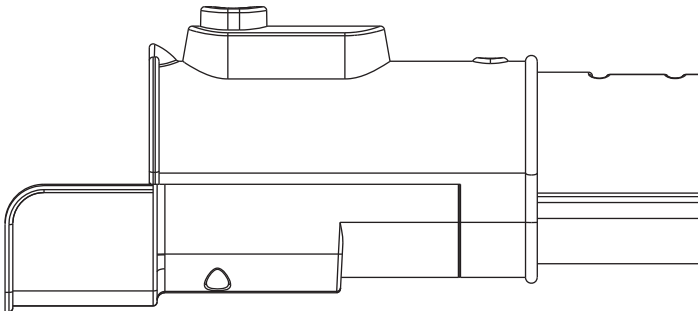

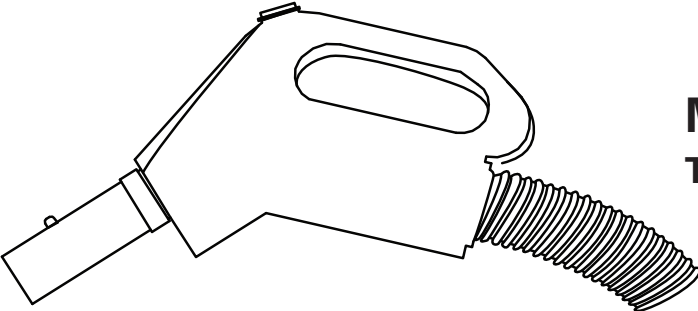

Applies to the CT700 Deluxe Electric Power Brush only

WAND PART No. CT170	VACUUM HOSE PART No. CH520 & CH620
 A line drawing of a rectangular wand assembly. It features a top handle with a circular grip, a main body with a trigger switch on the left side, and a series of three parallel lines extending from the right end, representing the vacuum hose connection.	 HOSE HANDLE A line drawing of a flexible vacuum hose with a corrugated end. The handle is a simple, curved grip attached to the hose.
WAND PART No. CT175	VACUUM HOSE PART No. CH515, CH615, VXCH515 & VXCH615
 A line drawing of a rectangular wand assembly, similar to CT170 but with a different handle design. It has a top handle with a circular grip, a main body with a trigger switch on the left, and three parallel lines extending from the right end.	 HOSE HANDLE A line drawing of a flexible vacuum hose with a corrugated end. The handle is a more complex, ergonomic grip with a trigger switch, attached to the hose.
