

ASSEMBLY INSTRUCTIONS

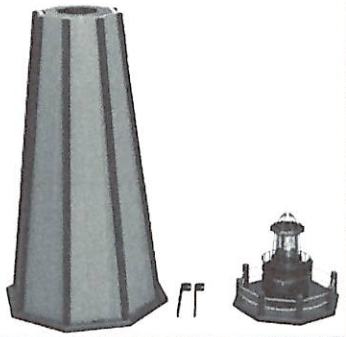

Lighthouse

TOOLS NEEDED

- Screw Gun
- #2 Square Bit

PARTS LIST

- 1 - Lighthouse Head
- 1 - Lighthouse Base
- 2 - Stakes
- 4 - 1½" Screws

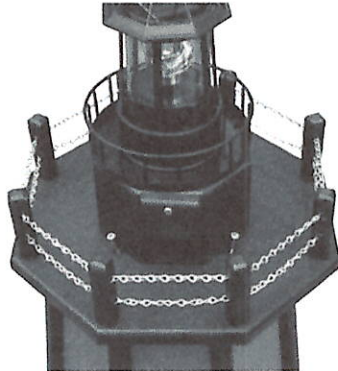

Step 1

Place the lighthouse head on top of the base.

Step 2

Center the top on the base. Fasten it using four 1½" screws in the pre-drilled holes.

Step 3

To turn on the solar light, locate the access lid on the side of the lighthouse head and flip it open. Place your finger inside the opening and turn on the switch. Close the lid.

Step 4

Finish installing the lighthouse by inserting the stakes into the holes on each side of the base and push them into the ground.
