Q & A:

Q: Frame drilling holes not align?

A: If discrepancy less than 1/8 in., please loosen other relative bolts first, then adjust parts position and re-tight all bolts.

if discrepancy more than 1/4 in., it should be parts deformation during violent transportation, please contact us for parts replacement.

Q: Why cushion shrink packing and how to help it rebound faster?

A: We shrink packing cushion is to improve product value to cost, because it can save transport cost a lot. We filled it with more and high-quality filling than normal cushion to make sure it can be fully rebound. Following up this method to speed up rebounding.

Q: Coffee table legs un-even?

A: Loosen bolts, then press table downwards, then tighten bolts again. If it can not solve problem, please contact us for parts replacement.

Q: Wicker colors different on parts?

A: We make wicker stripes to fit for nature environment, colors may various circularly. So when those wicker stripes hand-woven on product randomly, it may looks different on parts.

Q: Why some swivel plate not work well?

A: Swivel plate may need a running-in period like 10~20 cycles. If it still not swivel well, please contact us for swivel plate replacement.

Q: Bolts are not long enough for assembly sometimes?

A: Sometimes gaps maybe larger than the bolts to reach out when assembly, please contact us for longer bolts. After all, those parts are woven by hand-made. But after it assembled and all bolts tightened, the gaps will be disappeared, because wicker parts are flexible surface.
