HARDWARE

TOOL LIST

NOTE: Designated with (★) We provide additional spare parts in the hardware package

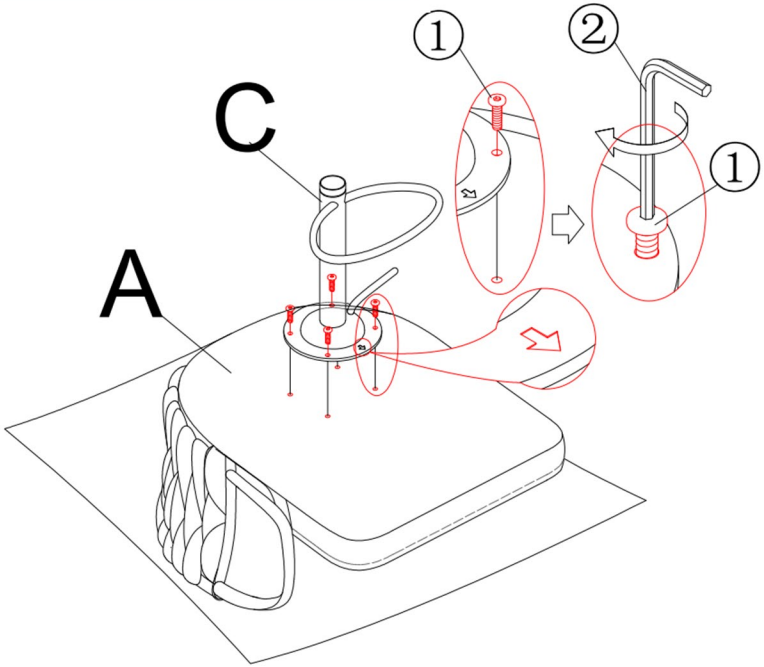

①*8	②*1
	
★Bolts	Allen key

Please make sure all hardware&packing material fitting the list. Especially some small accessories may be missing during transportation. Please contact us if you have any question.

step 1

Place the seat frame upside down on a clean surface, then install the mechanism onto the bottom of the seat frame as shown. Use the allen wrench provided to tighten all four bolts, make sure the bolt holes on seat frame and mechanism are correctly aligned before fully tighten. Please make sure the arrow points to the front of the chair before install.

Notice:
We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

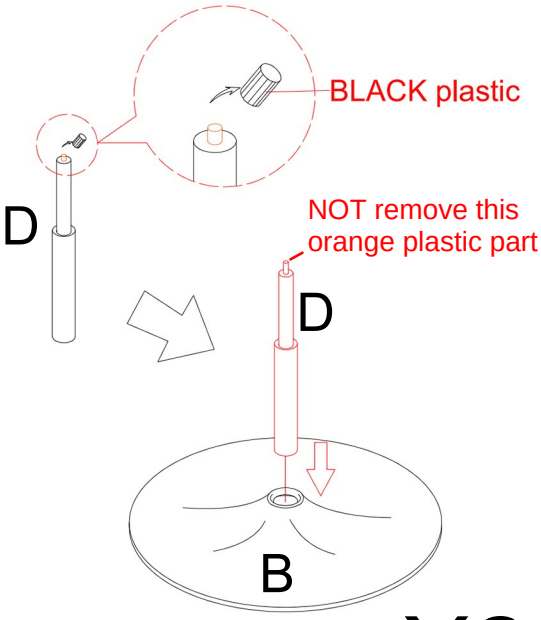

X2

step 2

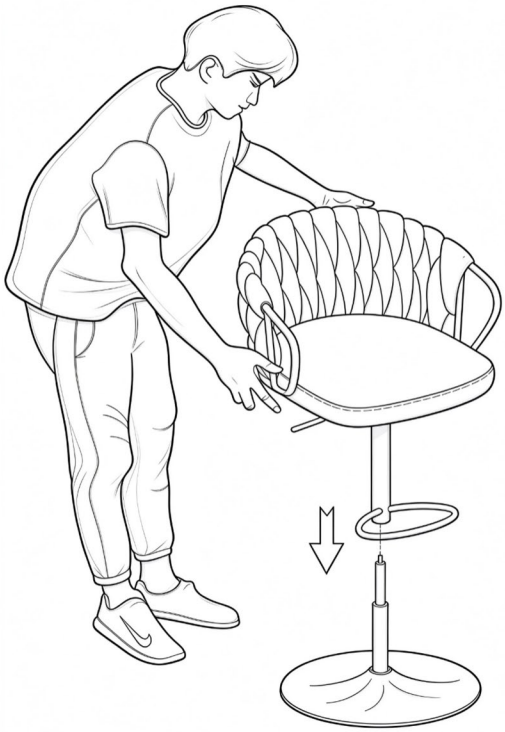

Remove the plastic cap from the tip of the gas lift as shown, then insert the gas lift to the hole on the base. Apply some force to push the gas lift down until its locked.

Then install the top part of the bar stool to the gas lift as shown, insert the gas lift into the mechanism.

Tips:The part that needs to be removed is the BLACK plastic protective cap with ribbed(it may have already fallen off into the cardboard tube). Do NOT remove the ORANGE plastic component at the top of the gas lift; removing it will ruin the gas lift.

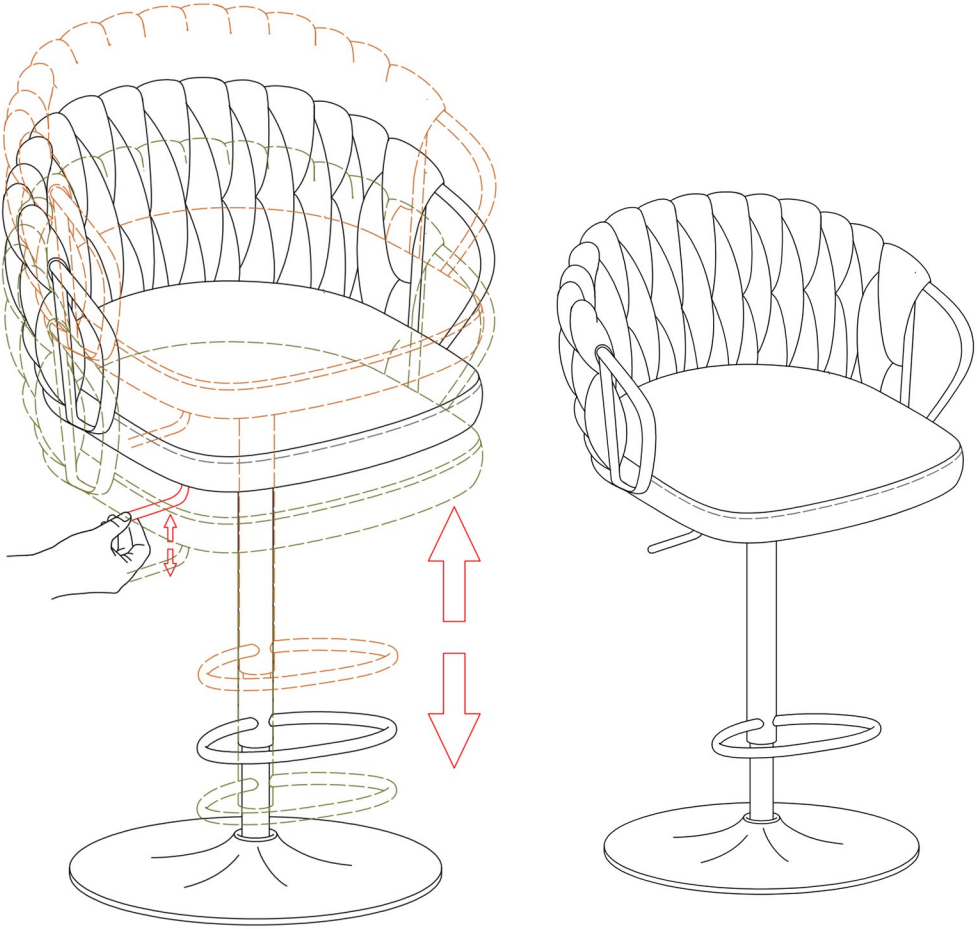

X2

step 3

The gas lift can be adjusted by pulling the handle on the side as shown, in order to adjust the height of the stool.
