- Save all packaging until finished.

# COMPONENTS

<b>Description</b>	<b>QTY</b>
Lantern	1
Glass Side Pane	3
Glass Door Pane	1
Gloves	1
Glass Glue	Several

# INSTALLATION

## **Step 1**

Remove all glass panes from the cardboard box that is included inside the lantern box.

## **Step 2**

Separate side panes from the door panes. Cut the glass glue into corresponding length according to the width of the glass. Stick the glass glue on the top and the bottom of the glass.

## **Step 3**

Insert a side pane in the bottom tab located on one of the sides of the lantern first, then once the side pane is set in place, fold the 2 metal tabs located at the top of the side of the lantern down to secure the glass in place. Repeat this step 2 more times.

## **Step 4**

Inside the door, insert the door pane. Fold up the 2 metal tabs on the bottom of the door. Next, fold down the 2 metal tabs on the top of the door to secure the glass in place.

## CLEANING & CARE

- Remove candle drips by placing the candle holder in hot water with a drop of detergent until wax softens.
- Avoid using any polish or acid as this will ruin the protective layer on the product.
- Finish by wiping with a dry, soft cloth.
