x1

REMARK:

1.The heights of boards is highly adjustable which you can customize according to your needs during installation.

2.It's able to be separated into 2 indenpendent shelves.

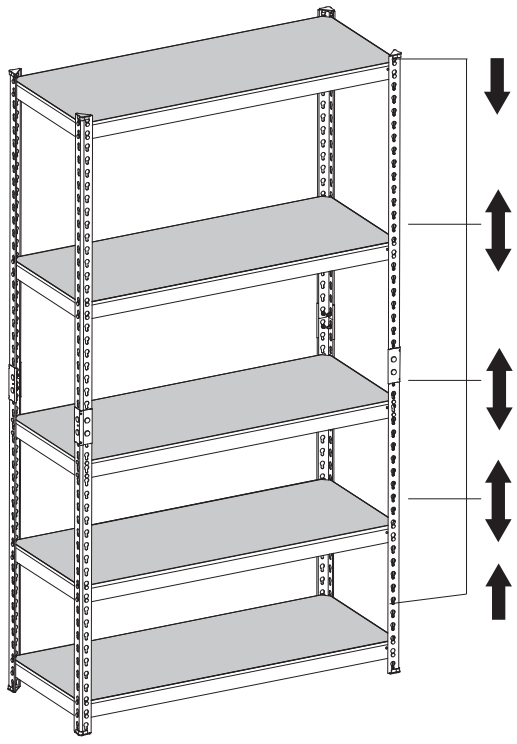

3.For longer usage lifespan,please place the product in a cool and dry enviroment.

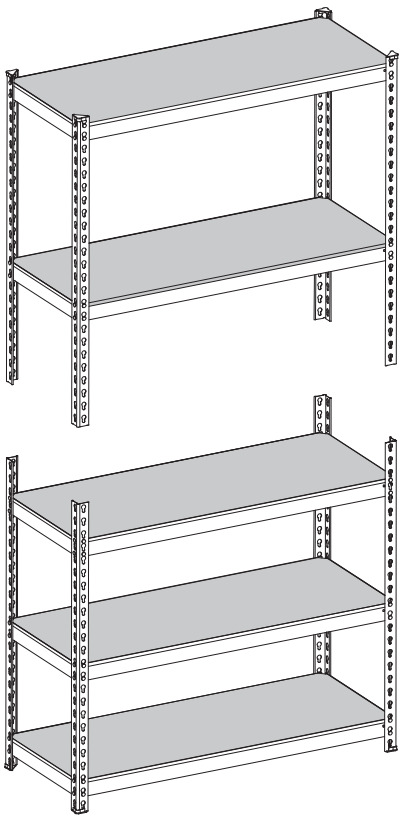

4.For safety concerns,DO NOT stack too high on the top shelf.

5.Please DO NOT place items heavier than the maximum weight des-cribed on the product page.

6.Wear gloves before installation.

7.Every Cross Bar (part ❷&❸) installing in same step must be at the same height.

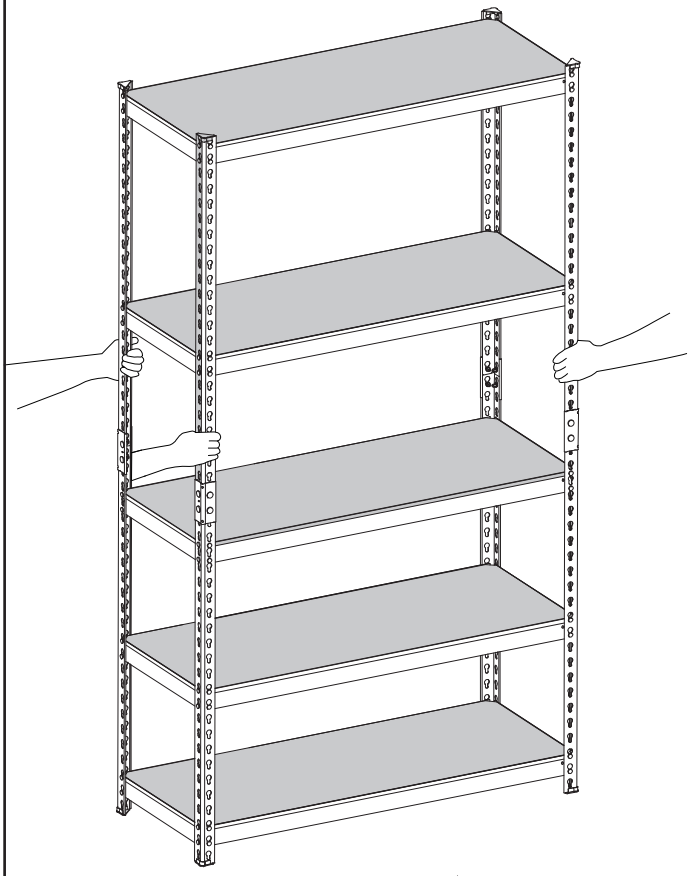

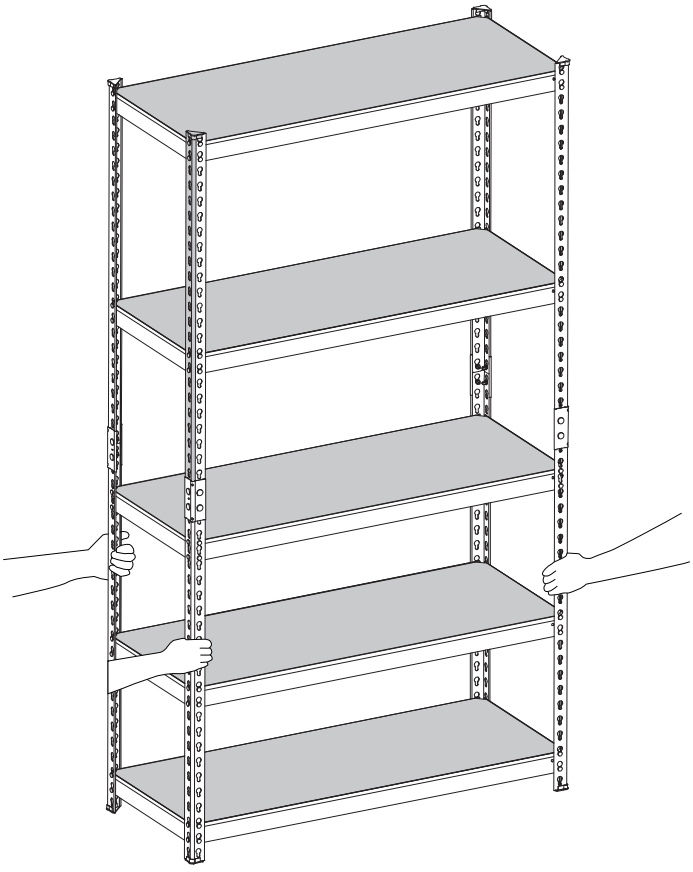

WARNING

(1) Please **do not** install cross bars at the connection of the vertical bars.

(2) For your safety, empty the shelving unit before moving. Always lift from below the connectors and move with two people.

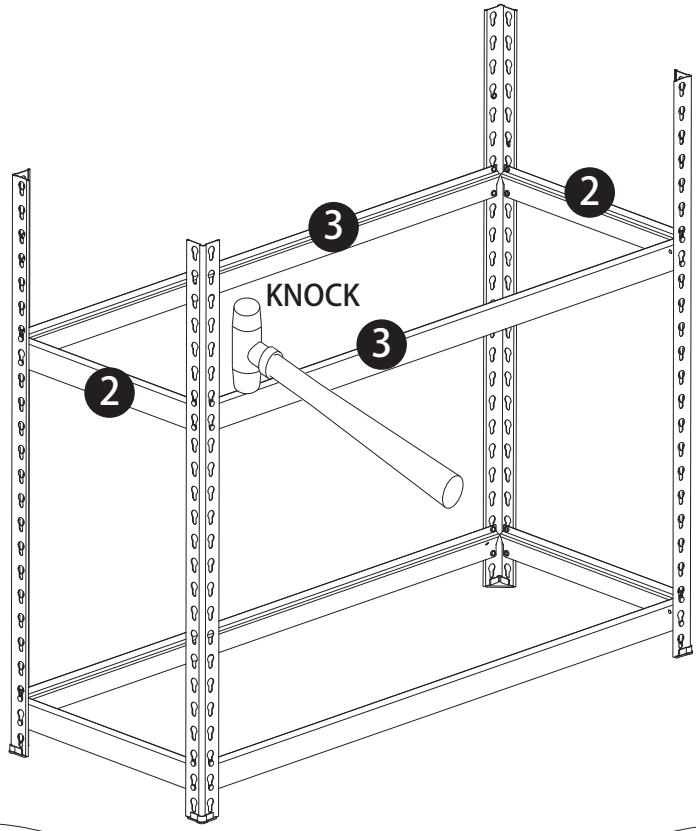

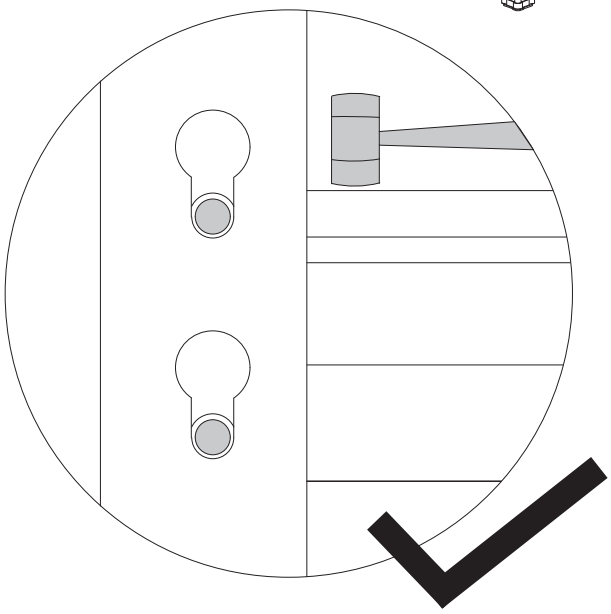

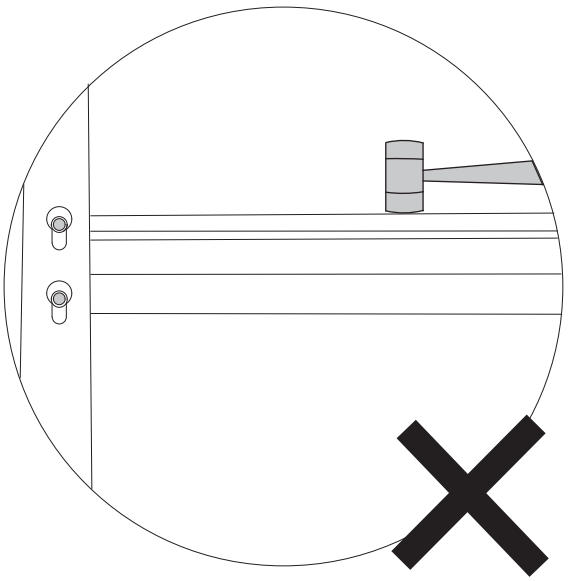

(3) For the overall stability of shelves,every cross bar (❷&❸) must be knocked fully tight into the end while installing.

(4) After each relocation, inspect all rivets on every crossbar for dislodgement. Tap any loose rivets firmly back into place with a hammer. Frequent relocation is not recommended.

(5) When tapping with a hammer, strike the crossbar edge adjacent to the upright.

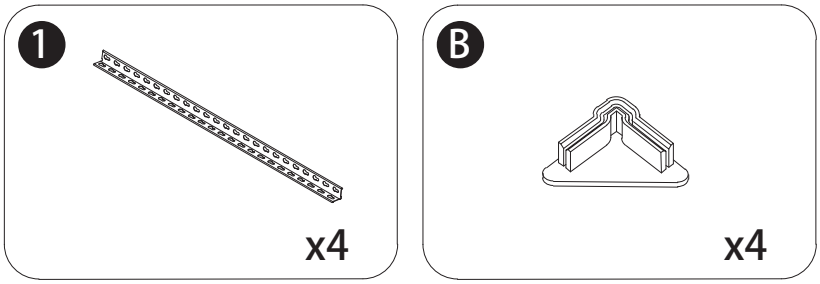

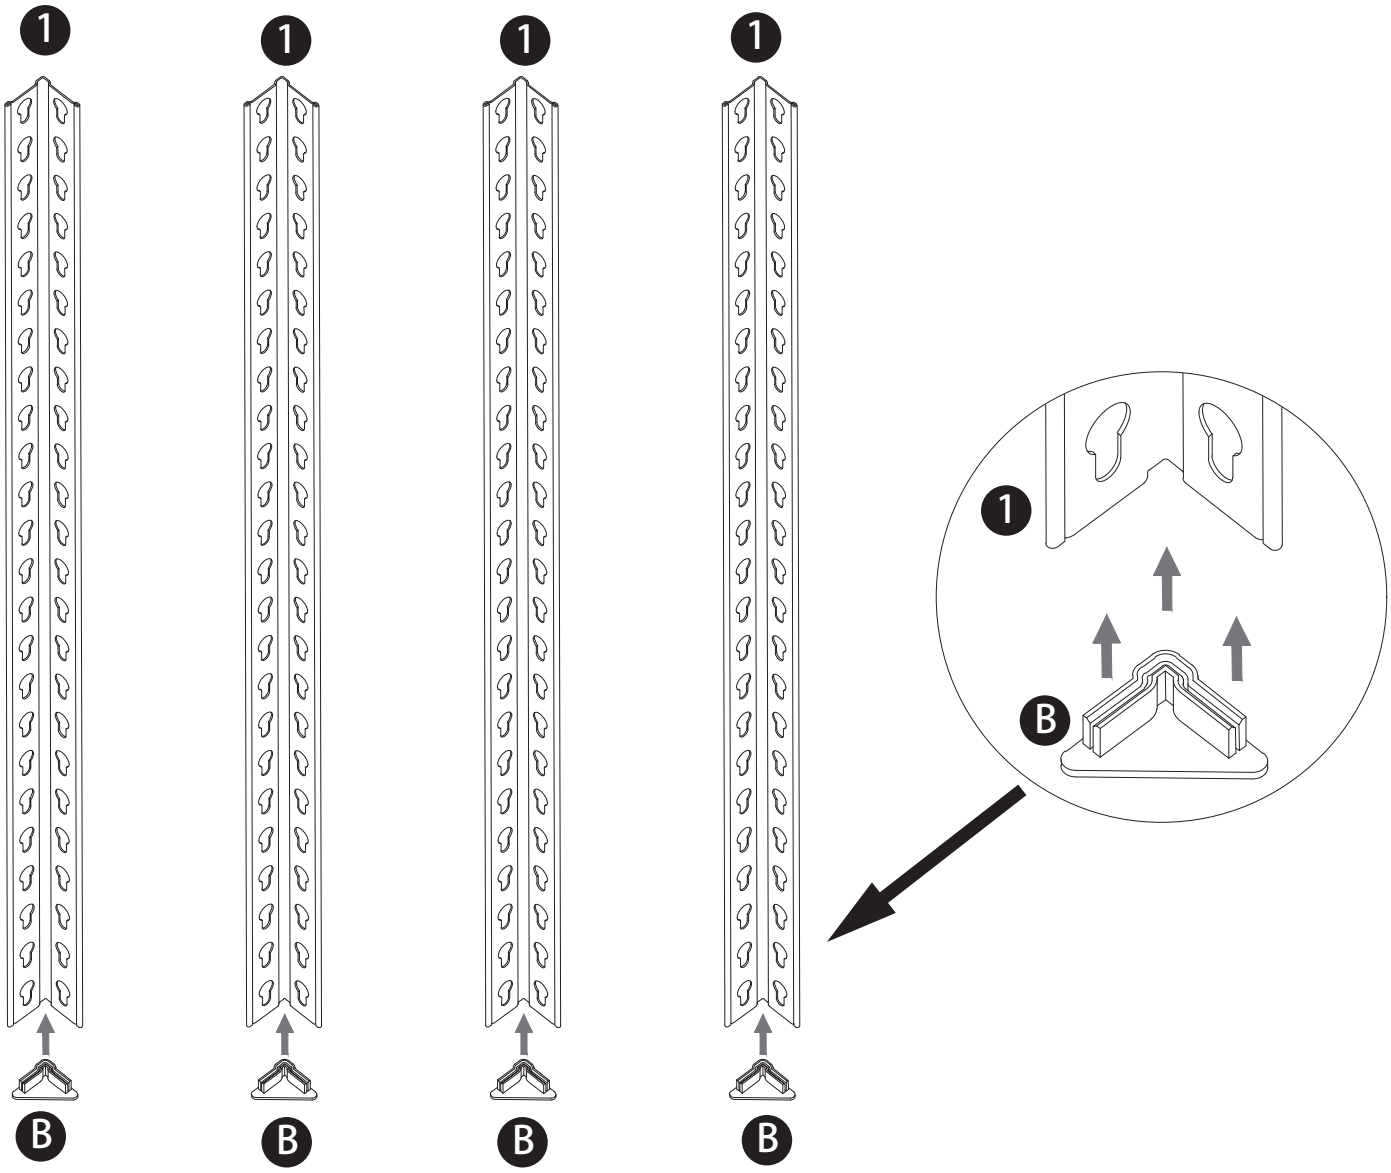

HOW TO INSTALL

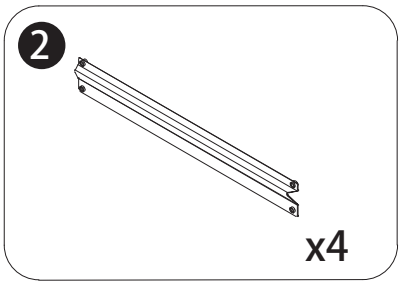

Note:please wear gloves before installation.

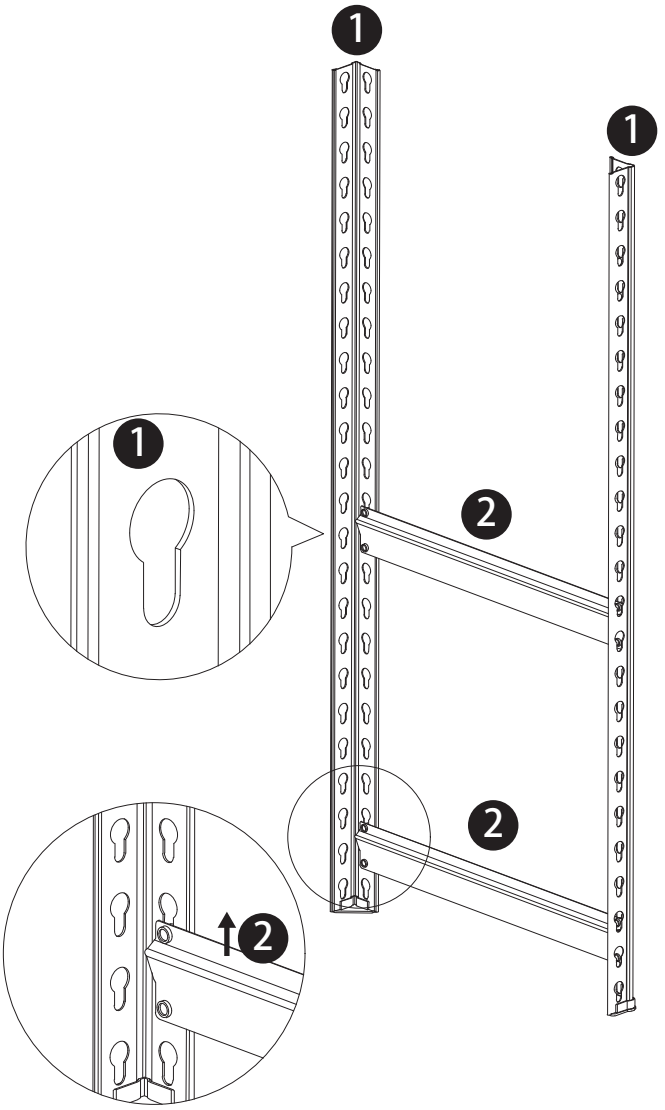

TEP 1

STEP 2

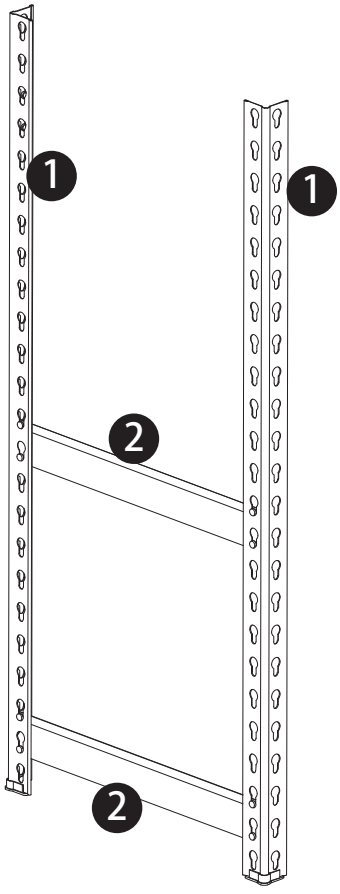

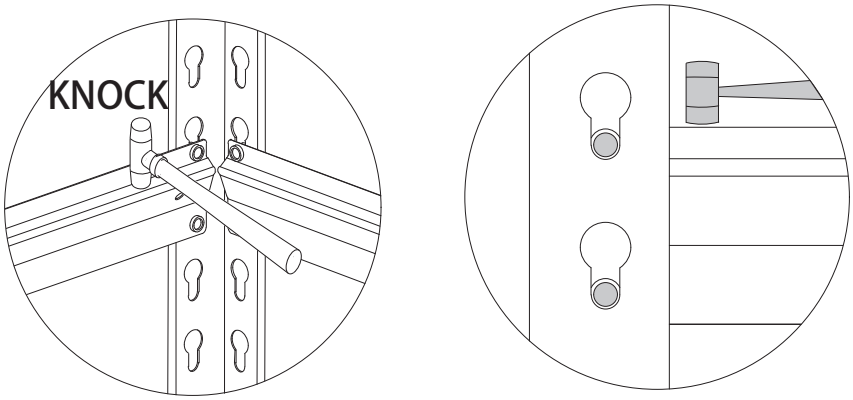

NOTICE

A: Make sure small holes on the long vertical bar facing down.

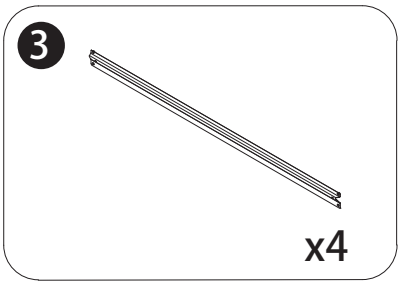

B: Put the flat side of the board support cross bar (2) facing up as shown in the picture.

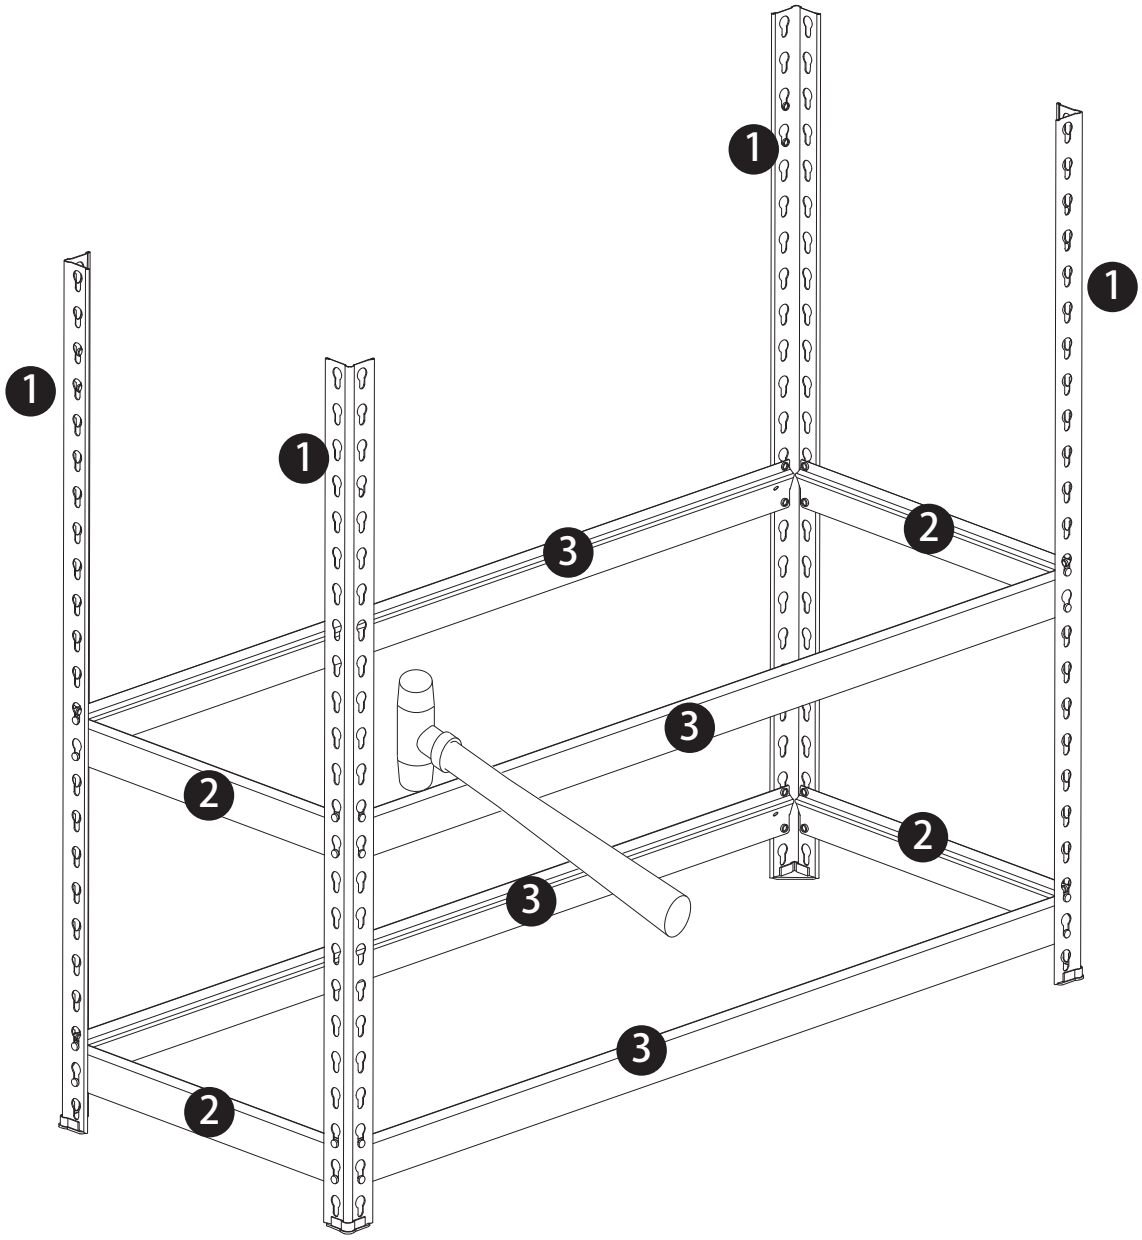

C: Knock on cross bar (2) with rubber hammer until the bar covered the small holes completely.

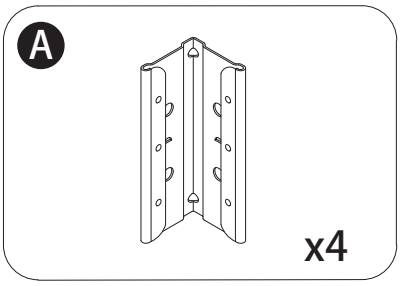

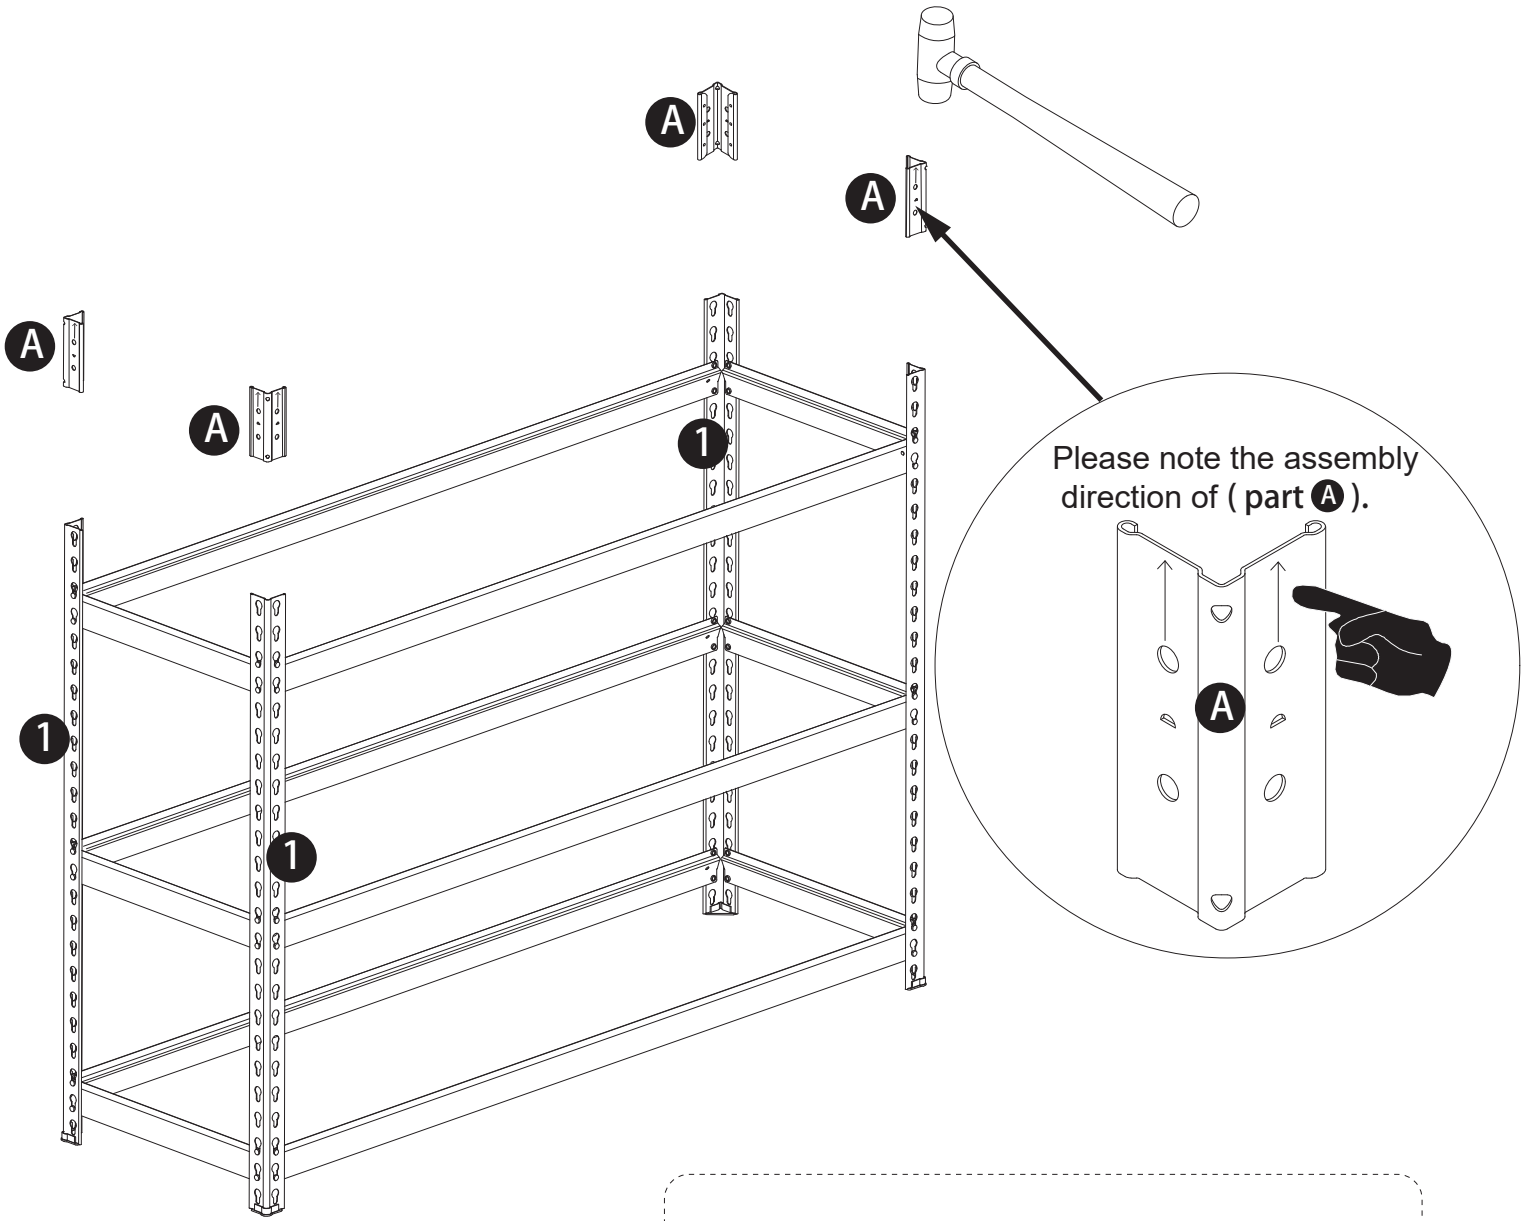

STEP 3
