PARTS IDENTIFICATION

HARDWARE IDENTIFICATION

This Anti-Tipping Kit (G) must be attached to a wall stud using the Screw (#D) enclosed.

1. Attach a Bracket (#B) securely to the back top rail of the Server (#1) using the Screw (#C) provided through the smaller hole.
2. Locate the other Bracket (#B) on the wall over a wall stud and 45mm below the mounting bracket secured to the back of your unit. Attach to the wall stud using the Screw (#D) provided through the smaller hole.
3. Place the furniture into position so both mounting Bracket (#B) are vertically in line.
4. Lace the end of the restraint Strap (#A) through the larger hole in each mounting bracket.
5. Confirm that the Strap (#A) is securely laced and locked.

Cleaning & Care

Treat surface with care. Surface is resistant to scratches but is not scratch resistant. Clean surface with a dry or damp soft cloth. Do not use abrasive cleaners. Hardware may loosen over time. Periodically check that all connections are tight.
