

Teardrop LED Floor Lamp Assembly Instructions

1. Screw pole (B) into base (A) clockwise until tight.
2. Screw together poles (C), (D) and (E) as in the diagram.
3. Poles may need extra slack from the power cord in order to tighten properly. If the poles are getting stuck, feed some of the power cord into the base until it loosens the cord enough to screw the poles together properly.
4. Shade assembly: Unscrew socket rings (G) from the lightbulb sockets. Place the wire shades (F) over the sockets. Then, carefully screw the socket rings back into the socket, until the wire shades are secured tightly. Finally, screw the lightbulbs into the sockets.
5. Lamp can be turned on and off with the floor pedal. Caution - pedal should be gently tapped on, excessive force may cause damage.

BULB TYPE:

Includes 3 pcs 6 W LED ST19 bulb.

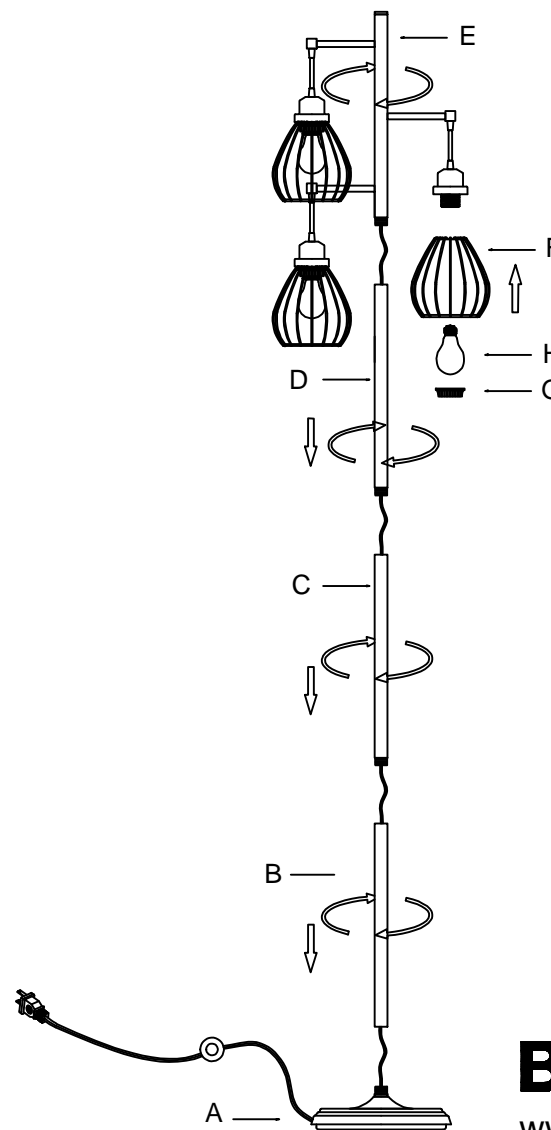

GENERAL PRODUCT INFORMATION:

The LED Floor Lamp is only suitable for use in a dry location.

IMPORTANT SAFETY WARNING:

AS A SAFETY FEATURE, IN ORDER TO REDUCE THE RISK OF ELECTRIC SHOCK, THIS LAMP HAS A POLARIZED PLUG. THIS MEANS ONE PRONG IS LARGER THAN THE OTHER AND WILL ONLY FIT ONE WAY IN A POLARIZED OUTLET. IF THE PLUG DOES NOT FULLY FIT INTO THE OUTLET, TAKE IT OUT AND FLIP IT OVER, REINSERTING THE PLUG WITH THE PRONGS REVERSED. IF THE PLUG STILL DOES NOT FULLY FIT INTO THE OUTLET, CONTACT A QUALIFIED ELECTRICIAN. NEVER USE THIS LAMP WITH AN EXTENSION CORD UNLESS THE PLUG CAN BE FULLY INSERTED INTO THE CORD'S SOCKET. NEVER PHYSICALLY MODIFY OR ALTER THE PLUG ITSELF IN ANY WAY.
