

NOTE: It would be useful to ask someone to help you at this stage.

Step 1: Attaching the KD Back for RAF and LAF recliners.

Position the back of your recliner with the KD receivers positioned over the mechanism. Check to assure both sides of the mechanism are positioned inside of the KD receiver on the back frame, pushing in a downward motion from the top of the back frame until a clicking sound is heard as seen at below.

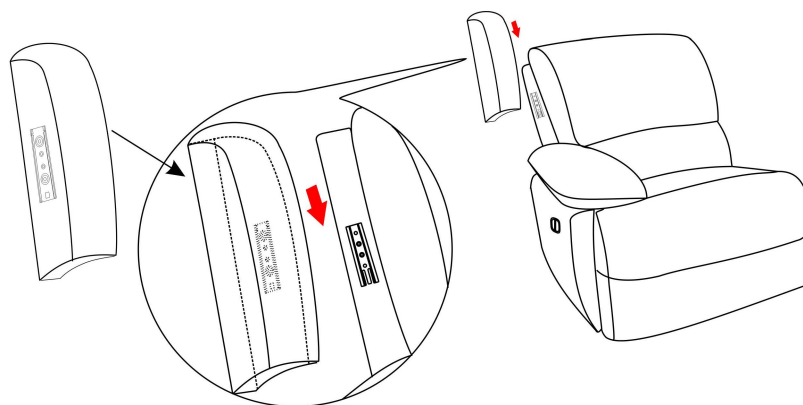

Continue to attach the KD backs for the rest configurations as below picture show:

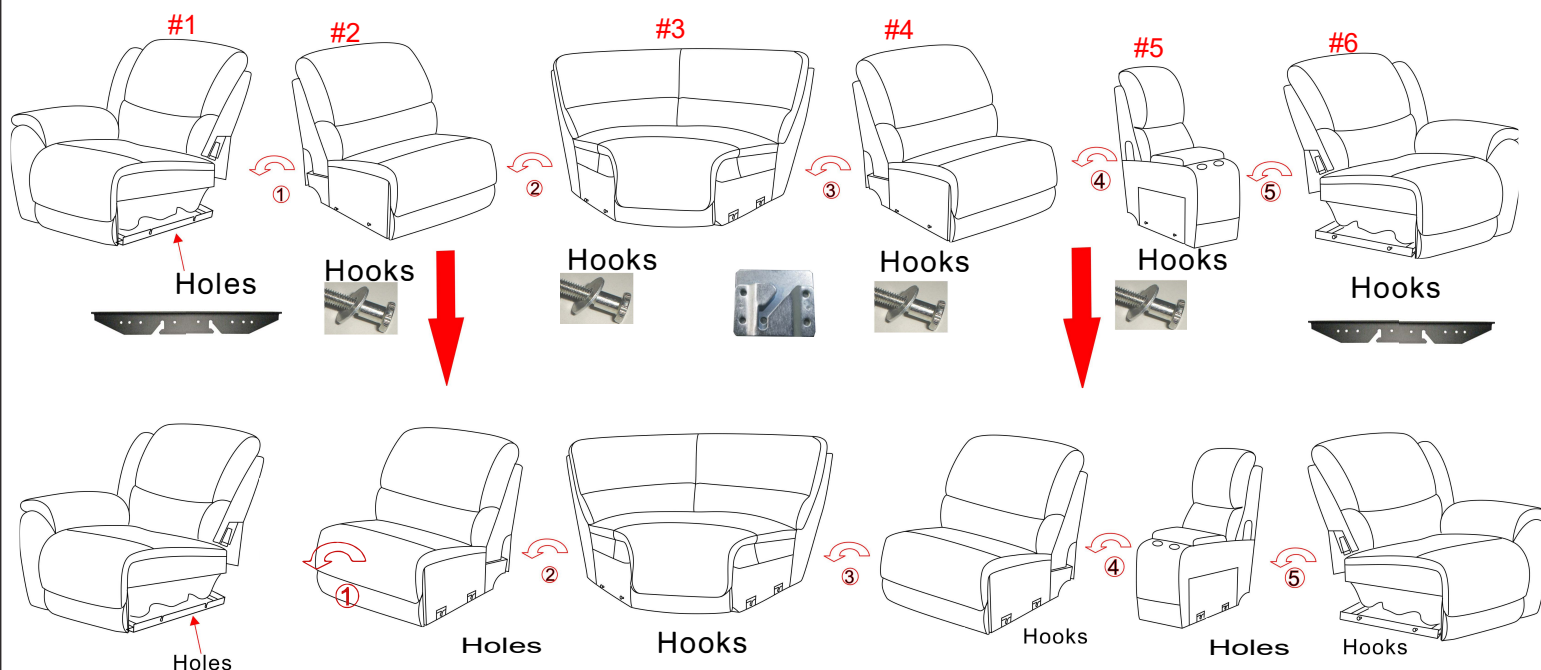

STEP 2: Attaching the KD Wings:

Carefully align the slide of Left Wing with the slide of Left Back Cushion (Right Wing with the slide of Right Back Cushion) and slide into place. Press down firmly until the wing and backrest are aligned.

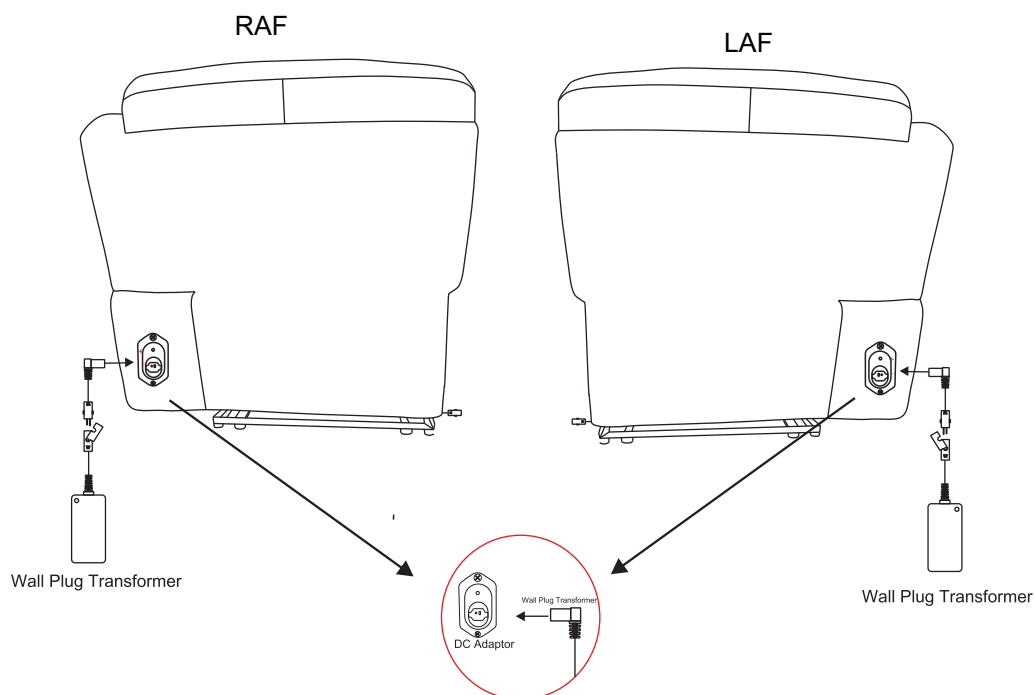

Step 3: Begin connection by placing the left Arm Facing power recliner #1 in desired location in room. Then start connection by placing # 2 into piece # 1. Continue connecting piece # 6 following the same method described above.

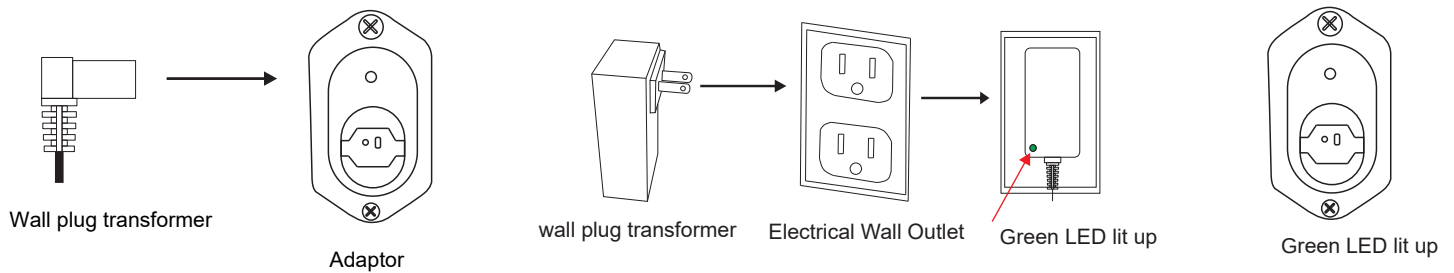

STEP 4:

Connect wall plug transformer.

Connect firmly one end the wire plug transformer cord into the DC adaptor located in the lower back corner of the Left and Right recliners and plug the other end of the transformer cord into a power outlet/wall socket.

Step 5: Connect wall plug transformer to adaptor, then connect the wall plug transformer to the outlet. After all connections have been made, ensure that LED light is lit on.
