Metal Cup Rack

Assembly Instructions

Thank you for your purchase. Please reference assembly instructions before use. Make sure all parts are present and place them side by side for easy identification.

Tool(s) Recommended: Electric Drill or Phillips Screwdriver

Package Contents:

A Adhesive Hook	B Rack	C Anchor	D Screw
			
2PCS	1PC	2PCS	2PCS

MAGNETIC INSTALLATION

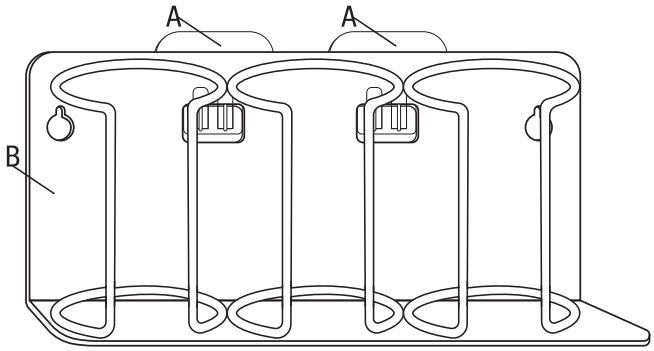

Step 1: The back of the rack is magnetic. Apply to any flat metal surface.

ADHESIVE HOOKS INSTALLATION

1

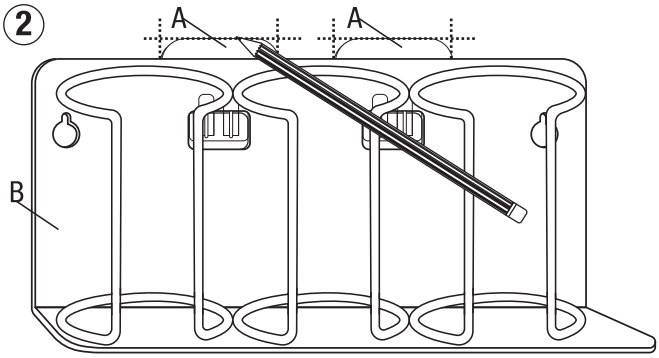

WARNING PLEASE NOTE:

The adhesive tape is very strong and is single use. For Step 1 DO NOT remove the plastic film from the tape yet.

Step 1: For Step 1 the adhesive is being used to measure the placement on the rack so DO NOT REMOVE the plastic film from the tape yet. Place the adhesive hooks (A) on the the rack (B) as shown.

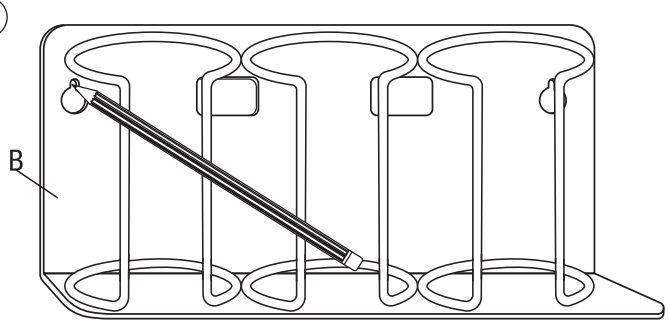

2

Step 2: Slide the rack with adhesive hooks on the shelf. On the under side of the shelf, mark down the spot of the adhesive hooks. Remove rack. Now peel off the plastic film from the adhesive hook. Carefully align the adhesive hook to the marked spot and stick to the shelf. Repeat with the second adhesive hook.

SCREW INSTALLATION

1

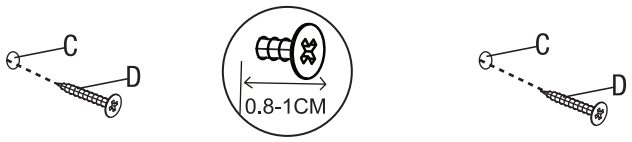

Step 1: Mark off where the rack will hang.

2

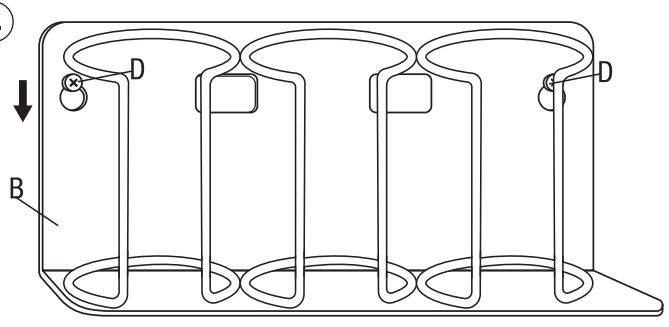

Step 2: Drill holes in desired installation space, then gently insert wall anchors(C) with hammer.

3

Step 3: Secure the screw (D) through the anchor (C) as shown leaving 08-1cm of the screw head out of the wall.

4

Step 4: Hang rack on the installed screws and pull down to secure.
